About Data Folder

Use Data Folder to manage data on handset. Files are automatically saved to folders by file format.

● Some folders contain links. Use the links to access download sites in Yahoo! Keitai.

Folders & Files in Data Folder

My Picture	Melody	S! Appli
Image files (Camera images and downloaded files such as My Pictograms)	Melodies and audio files recorded by Voice Announce	Downloaded S! Appli

Ring Songs·Music	Videos	TV
Chaku-Uta®, Chaku-Uta Full® and downloaded music files	Video files (captured/downloaded video files)	Recorded programs[1] and captured screenshots[2]

1 Save to memory card only.
2 Save to handset only.

When Data Folder memory is full or number of files savable is reached, a message asks whether to delete unnecessary data (note, however, this message may not appear depending on the data type). Follow the steps below to delete data:

*YES* ➡ ⦿ ➡ Select a folder ➡ ⦿ ➡ Select a data item ➡ ⦿ ➡ ✉ ➡ *YES* ➡ ⦿

● You may need to select a data type before selecting a folder if the data you want to delete has multiple storage areas.
● You may need to select more than one data item to delete depending on the degree of insufficient memory.

Save files to memory cards. Still images and videos shot with handset camera can be saved directly to memory card. Data can be copied and moved between handset and memory card. Data on memory card can also be accessed from Data Folder.

● Handset supports memory cards of up to 2 GB.
● Do not insert or remove memory cards when handset power is on.
● Insert memory cards properly. Otherwise, they cannot be used on handset.
● Do not affix stickers or labels to memory cards. As memory cards are very thin and precise mechanisms, even a thin sticker or label on a memory card may cause contact failure or destruction of data.
● Keep memory cards out of reach of infants who may accidentally swallow them or be injured.
● Do not remove a memory card or power off handset while writing and reading data with that memory card. It may cause data loss or malfunction.
● Access to memory cards may be unavailable when the battery level is low.

Inserting & Removing a Memory Card

Turn handset power off before inserting or removing a memory card.

Insertion

1 Open Slot Cover

2 Insert memory card into Memory Card Slot until it locks
Insert gently with the printed logo facing up.

Memory Card Slot Cover

Logo faces up
3 Close Slot Cover

Tip
• If 📵 appears in Display, there may be a contact failure. Remove and reinsert memory card.

Removal

1 Press and release
Gently pull out memory card.

Note
• Memory card may spring out.
• Memory card may break if inserted or removed with force.

Formatting a Memory Card

● Format memory cards on handset only. Memory cards formatted on another device or PC may not work.
● Formatting a memory card deletes all the data on it.
1 ● ⇨ *Tools* ⇨ ● ⇨ *microSD Manager* ⇨ ●

2 ⊙ ⇨ *microSD Format* ⇨ ● ⇨ **Enter Security Code** ⇨ ● ⇨ *YES* ⇨ ●

Note

• Do not remove memory card while formatting. Handset/memory card malfunction may occur.
• Make sure that there is no important data left on the memory card before formatting it.
