# About This Guide

In this guide, SoftBank 8405C is referred to as "handset". Instructions are described using mainly default settings. When settings are changed, screenshots or handset responses may differ from those depicted in this guide.

## Screenshots & 8405C Illustrations

Screenshots appearing in this guide are for reference only and may differ from actual Display images. Product illustrations may differ from actual product appearance.

In some screenshots, Wallpaper is set to None for Display image clarity.

## Confirmations & Warning Messages

Messages not described in this guide may appear; read all handset confirmations and warning messages carefully.

## Japanese Functions & Services

When " (Japanese) " appears in a title, Japanese ability is required to use full range of the function or service.

## Symbols

In this guide, graphics represent handset keys; see "Parts & Functions" (P.1-2).

Softkeys and Multi Selector operations are indicated as follows:

### Softkeys

Operation options such as "Select" and "Save" appear at the bottom of Display (Softkey area). Press the corresponding Softkey to execute assigned functions.

### Softkey Operations

## Multi Selector Operations

Use Multi Selector to select menu items, move cursor, scroll, etc. In this guide, Multi Selector operations are indicated as shown below:

# Safety Precautions

Read safety precautions before using handset.

- Observe precautions to avoid injury to self or others, or damage to property.
- SoftBank Mobile is not liable for any damages resulting from use of this product.

These labels indicate the degree of risk from improper use. Make sure you thoroughly understand their meanings before reading on.

 <b>Danger</b>	Great risk of death or serious injury <sup>1</sup> from improper use
 <b>Warning</b>	Risk of death or serious injury <sup>1</sup> from improper use
 <b>Caution</b>	Risk of injury <sup>2</sup> or damage to property <sup>3</sup> from improper use

- 1 "Serious injury" includes blindness, wounds, low/high heat burns, electric shock, bone fractures, poisoning or other physical harm with aftereffects, or requiring hospitalization or ongoing hospital visits.
- 2 "Injury" includes wounds, burns, electric shock or other physical harm not requiring hospitalization or ongoing hospital visits.
- 3 "Damage to property" includes damage to home, furniture, livestock, pets, etc.

These symbols indicate prohibited or compulsory actions. Make sure you thoroughly understand their meanings before reading on.

 Prohibited actions
 Do Not Disassemble
 Avoid Liquids Or Moisture
 Do Not Use Wet Hands
 Compulsory actions
 Disconnect Power Source

## Handset, Battery, USIM Card, Charger (Sold Separately) & Memory Card (Sold Separately)

### Danger

#### Use specified battery and Charger (sold separately) only.

Non-specified equipment use may cause battery to leak, overheat, burst or ignite, and may cause Charger to overheat, ignite, malfunction, etc.

Compulsory

#### Do not disassemble, modify or solder handset or related hardware.

May cause fire, injury, electric shock or malfunction. Battery may leak, overheat, burst or ignite.

Modifying handsets is prohibited by the Radio Law and subject to a penalty.

Do Not  
Disassemble

#### Do not expose internal handset parts or related hardware to liquids.

Do not leave handset or related hardware wet after exposure to water, pet urine, etc., and do not charge wet battery. May cause overheating, electric shock, fire, injury or malfunction. Use them in an appropriate place properly.

Avoid Liquids  
Or Moisture

#### Do not charge battery in or expose handset or related hardware to extreme heat (e.g., near fire or sources of heat, in direct sunlight, inside vehicles, etc.).

May cause warping/malfunction; battery may leak, overheat, ignite or burst. Handset or related hardware may become hot to the touch, leading to burn injuries, etc.

Prohibited

#### Do not force battery/Charger into handset. Check the direction and retry.

Battery may leak, overheat, burst, ignite, etc.

Prohibited

### Warning

#### Do not place handset, battery or Charger in/on ovens, microwave ovens, pressure cookers, induction stoves or other cooking appliances.

Prohibited

Battery may leak, overheat, burst or ignite. Handset/Charger may overheat, emit smoke, ignite, malfunction, etc.

#### Keep handset off and Charger disconnected near gas stations or places with fire/explosion risk.

Compulsory

Handset use near petrochemicals or other flammables may cause fire/explosion.

To prevent fire or explosion, do not use handset near gas or fine particles (coal, dust, metal, etc.).

#### Do not apply strong shocks or impacts.

Prohibited

Do not drop/throw handset or related hardware. Battery may leak, overheat, burst or ignite, resulting in fire, electric shock, malfunction, etc.

#### If there is unusual sound/odor, smoke or any other abnormality:

Compulsory

Continued use may cause fire, electric shock, etc.; grasp plug to disconnect Charger from connector.

#### Keep liquids (water, pet urine, etc.) or conductive material (pencil lead, metallic strip, metal jewelry, etc.) away from Charging terminals, External Device.

Prohibited

May cause short circuit, resulting in fire, malfunction, etc.

## Caution

### **Do not place handset or related hardware on unstable surfaces.**

Handset or related hardware may fall, resulting in injury, malfunction, etc.; be especially careful when Vibration is set or during Charge.

Prohibited

### **Keep handset and related hardware out of infants' reach.**

Infants may choke from swallowing handset or related hardware or be injured, etc.

Compulsory

### **If your child is using handset and related hardware, explain all instructions and supervise usage.**

Misuse may cause injury, etc.

Compulsory

## Battery

## Danger

Read battery label to confirm battery type; use/dispose of battery accordingly.

Display	Battery type
Li-ion00	Lithium-ion

### **Do not dispose of battery in fire.**

Battery may leak, burst, ignite, etc.

Prohibited

### **Do not damage battery (with a nail, hammer, foot, etc.) or subject it to strong impacts or shocks.**

Battery may leak, overheat, burst, ignite, etc.

Prohibited

### **Keep wire or other metal objects away from battery terminals. Do not carry/store battery with conductive material (pencil lead, metallic strip, metal jewelry, etc.).**

Battery may leak, overheat, burst, ignite, etc.

Prohibited

### **If battery fluid gets in eyes, do not rub; rinse with water and consult a doctor immediately.**

Eyes may be severely damaged.

Compulsory

## Warning

**If battery fluid contacts skin or clothes, discontinue handset use and rinse with clean water immediately.**

May cause skin damage.

Compulsory

**If battery does not charge properly, stop trying.**

Battery may leak, overheat, burst, ignite, etc.

Compulsory

**If there is abnormal odor, excessive heat, discoloration or distortion, remove battery, being careful not to burn or injure yourself. Avoid fire sources.**

Continued use may cause battery to leak, overheat, burst, ignite, etc.

Compulsory

## Caution

**Do not dispose of an exhausted battery with ordinary refuse.**

Tape over battery terminals before disposal. Take battery to a SoftBank Shop, or follow the local disposal regulations.

Prohibited

## Handset

### Warning

**Do not use handset while driving or cycling.**

Accidents may result.

Phone use while driving or cycling is prohibited by law and subject to a penalty; park in a legal parking space beforehand.

Prohibited

**Turn handset power off near electronic devices that employ high precision control systems or weak signals.**

May cause electronic malfunctions, etc. Be especially careful near the following devices:

Hearing aids, implanted pacemakers/defibrillators and other electronic medical equipment; fire alarms, automatic doors and other automatic control devices.

Compulsory

**Because handset radio waves may impair aircraft operations, please power off handset while aboard.**

When handset use aboard aircraft is allowed, please follow instructions of airline personnel.

Compulsory

**Users with a heart condition should adjust ringtone Vibration and Volume as needed.**

May cause heart damage.

Compulsory

**If thunder is heard while outdoors, turn power off; find cover.**

There is a risk of lightning strike or electric shock.

Compulsory

---

**Do not look into Infrared Port during Infrared transmissions.**

Eyesight may be affected.

Prohibited

## Caution

---

**Do not use handset when it may affect a vehicle's electronic equipment.**

Handset use inside vehicles may cause electronic equipment to malfunction, resulting in accidents.

Prohibited

---

**If you experience any skin irritation associated with handset use, discontinue handset use and consult a doctor.**

Metal and other materials may cause skin irritation, rashes, or itchiness depending on your physical condition.  
For materials, see "Materials & Finishing" (P.15-17).

Compulsory

---

**Keep handset away from magnetic cards, etc.**

Data on bank cards, credit cards, telephone cards, floppy disks, etc. may be lost.

Prohibited

---

**Do not swing handset by strap.**

May harm self or others; strap may break, resulting in injury or handset malfunction/breakage.

Prohibited

---

**Handset may become hot while in use, especially at high temperature.**

Prolonged contact with skin may cause burn injuries.

Compulsory

---

**Always maintain some distance from Speaker while ringtones, music or other handset sounds play.**

Excessive volume may damage ears or hearing.

Prohibited

---

**When view Digital TV, be sure to view in place with enough light and view from distance, otherwise it may cause decrease in vision.**

Compulsory

---

**Moderate handset volume when using Earphone Microphone.**

Excessive volume may damage ears or hearing.

Compulsory

## Charger (Sold Separately)

### Warning

#### Do not cover/wrap Charger while charging.

Charger may overheat, resulting in fire, malfunction, etc.

Prohibited

#### Use only the specified voltage.

Non-specified voltages may cause fire, malfunction, etc.

- AC Adapter (sold separately) : AC 100V-240V (only for household wall sockets).

Prohibited

#### Leave Charger unplugged during periods of disuse; grasp plug to disconnect it.

May cause electric shock, fire or malfunction.

Disconnect  
Power Source

#### If liquids (water, pet urine, etc.) seep inside Charger, grasp plug from outlet and disconnect Charger immediately.

May cause electric shock, smoke/fire.

Disconnect  
Power Source

#### If plug is dusty, grasp it and disconnect Charger, then clean with a dry cloth.

Fire may result.

Compulsory

Plug Charger firmly into the outlet, keeping the plug and Charger charging terminals away from conductive material (pencil lead, metallic strip, metal jewelry, etc.).

Compulsory

May cause electric shock, short circuit, fire, etc.

#### Do not touch Charger plug with wet hands.

May cause electric shock or malfunction, etc.

Do Not Use  
Wet Hands

#### Do not touch Charger if thunder is heard.

May cause electric shock, etc.

Prohibited

### Caution

#### Grasp plug and disconnect Charger from outlet before cleaning.

May cause electric shock, etc.

Disconnect  
Power Source

#### Always grasp plug (not cord) to disconnect Charger from outlet.

Pulling the plug by cord may damage cord, causing electric shock, fire, etc.

Compulsory

#### Do not subject Charger (sold separately) to strong shocks or impacts while it is plugged into the outlet.

May cause malfunction or injury.

Prohibited

## Handset Use & Electronic Medical Equipment

This section is based on "Guidelines on the Use of Radio Communications Equipment such as Cellular Telephones and Safeguards for Electronic Medical Equipment" (Electromagnetic Compatibility Conference, April 1997) and "Report of Investigation of the Effects of Radio Waves on Medical Equipment, etc." (Association of Radio Industries and Businesses, March 2001).

### Warning

---

#### Persons with implanted pacemaker/defibrillator should keep handset more than 22 cm away.

Radio waves may interfere with implanted pacemakers or defibrillators.

Compulsory

---

#### If you intend to use electronic medical equipment other than implanted pacemaker/defibrillator outside medical facilities, consult the vendor on radio wave effects.

Radio waves may interfere with electronic medical equipment.

Compulsory

---

#### Observe these rules inside medical facilities to avoid effects of radio waves on electronic medical equipment:

Compulsory

- Do not enter an operating room or an Intensive or Coronary Care Unit while carrying a handset.
- Keep handset off in hospitals; cancel the setting that turns handset power on automatically (alarm, etc.) beforehand.
- Even in lobbies or other places where handset use is permitted, keep handset off near electronic medical equipment.
- Obey medical facility rules on mobile phone use.

---

#### Turn handset off in crowds or trains where persons with implanted pacemaker/defibrillator may be near; cancel the setting that turns handset power on automatically (alarm, etc.) beforehand.

Compulsory

Radio waves may interfere with implanted pacemakers or defibrillators causing such devices to malfunction.

# General Notes

---

## General Use

- SoftBank Mobile is not liable for any damages resulting from accidental loss/alteration of any data on handset/Memory Card. Please keep separate records of Phone Book entries, etc.
- Handset transmissions may be disrupted inside buildings, tunnels, or underground, or when moving into/out of such places.
- Use handset without disturbing others.
- Handsets are radios as stipulated by the Radio Law. Under the Radio Law, handsets must be submitted for inspection upon request.
- Handset use near landlines, TVs or radios may cause interference.
- **Beware of eavesdropping.**  
Because this service is completely digital, the possibility of signal interception is greatly reduced. However, some transmissions may be overheard.
  - **Eavesdropping**  
Deliberate/accidental interception of communications constitutes eavesdropping.

## Inside Vehicles

- Never use handset while driving.
- Do not park illegally to use handset.
- Handset use may affect a vehicle's electronic equipment.

## Aboard Aircraft

- Because handset radio waves may impair aircraft operations, please power off handset while aboard.  
If handset use aboard aircraft is allowed, please follow instructions of airline personnel.

## Function Usage Limits

- The following functions are disabled after handset upgrade/replacement or service cancellation:
  - Camera
  - Media Player
  - S! Appli
  - TV
- After a long period of disuse, these functions may be unusable; establish a network connection to restore usability.

## Handset Care

- If handset is left with no battery or an exhausted one, data may be altered/lost. SoftBank Mobile is not liable for any resulting damage.
- Use handset between 5°C - 35°C. Avoid extreme temperatures/direct sunlight.
- Exposing lens to direct sunlight may damage color filter affecting image color.
- Do not drop or subject handset to shocks.
- Clean handset with a dry, soft cloth. Using alcohol, thinner, etc. may damage it.
- Never disassemble or modify handset.
- Avoid scratching Display.
- When using headphones, moderate the volume to avoid sound bleed.
- Heavy objects or excessive pressure should be avoided. This may cause malfunction or injury.
  - Do not sit down with handset in pocket.
  - Do not place heavy objects on handset in a bag.
- Insert only specified devices into Headphone Port. Malfunction or damage may result.
- Always turn power off before removing battery. If battery is removed while saving data or sending mail, data may be lost, changed or destroyed.

## Keypad Surface Swelling

- Keypad surface might swell up due to drastic atmospheric changes (at high altitudes, aboard high-flying aircraft, etc.) when Battery Cover is closed. This is normal. Keypad will return to its original shape.
- Open Port Cover to release air that may be trapped inside handset.
- Carefully close Battery Cover to avoid trapping excess air inside handset.
- When using a swollen Keypad, take care to avoid damaging protrusions. Original shape will return.

## Water Resistance

### 8405C Water Resistance

- **8405C complies with IPX5 (former JIS protection level 5)<sup>1</sup> and IPX7 (JIS protection level 7)<sup>2</sup> water protection standards, with Port Covers closed and Battery Cover locked firmly.**

<sup>1</sup>IPX5 compliant means that this handset continues to function as a phone after being subjected to a water jet (approximately 12.5 liters/min.) discharged from a nozzle (inner diameter: 6.3 mm), from all directions (approximately 3 m from handset) for at least three minutes.

<sup>2</sup>IPX7 compliant means that this handset continues to function as a phone and no water seeps inside after being gently lowered into a tank filled with still tap water (at room temperature) to the depth of 1 m, and immersed at the bottom for approximately 30 minutes.

- **Warranty does not cover malfunctions resulting from misuse.**

### Usage Notes

- Lock Battery Cover and close Port Covers firmly. Foreign matter (hair, sand, fibers, etc.) trapped between contact surfaces may cause seals to fail and expose internal parts to water.
- Leaving Battery/Port Covers open may expose handset to moisture, causing malfunction/electric shock. Power handset off, and remove battery.
- If handset gets wet, moisture might get between Keypad and hinges. Wipe off handset with a clean, dry cloth. Do not leave handset wet.
- To prevent water from getting inside a handset exposed to rain or touched with wet hands, do not open Battery Cover or Port Cover. After handset has completely dried out, slowly open Battery Cover or Port Cover. If liquid does get inside, do not use handset; power off, remove battery, and take it to a SoftBank Shop.
- To prevent water from getting inside handset when areas around Port Cover or Battery Cover are wet, wait until handset has completely dried, before slowly opening and closing covers.
- Handset is resistant to fresh/tap water at room temperature (5°C - 35°C) only.

## Precautions

- Do not expose handset to liquids (soaps, detergents, soapy water, seawater, pool water, hot spring water, boiling water, chemicals, or perspiration, etc.) other than fresh/tap water. Do not expose handset to sand or mud.
- If handset is exposed to liquid other than fresh/tap water, immediately rinse off handset with water. Position handset approximately 10 cm from tap or shower head and wash with a low pressure flow (less than six liters per minute, at room temperature (5°C - 35°C)). Hand wash (do not use brushes or sponges) with Battery Cover in place and locked, and Port Cover closed.
- Do not expose handset to bathtubs or swimming pools. Do not use handset (open or close handset, or use Keypad) in water.
- Handset is not resistant to water at high pressure. Do not expose handset to tap or shower water flowing faster than six liters per minute, drop it into water, or submerge.
- Do not expose handset to extreme humidity for long periods; avoid prolonged use in bath/shower rooms.
- Use handset within 5°C - 35°C (up to 40°C for temporary use in bath/shower rooms, etc.) and 35% - 90% humidity.
- Handset is not heat-resistant. Do not use in saunas. Avoid hot air from dryers, etc.
- Avoid extreme temperatures (e.g., near stoves, inside refrigerators, etc.).
- Volume may be low when Microphone/Earpiece/Speaker is wet; dry handset before use. After drying out, the volume will return to normal.
- Avoid placing handset directly on sand. Sand may penetrate Earpiece, Speaker, etc., resulting in low volume.
- Do not move handset directly from a cold place to a warm, humid place; condensation may occur. Should this happen, let handset dry naturally, at room temperature.
- Handset does not float.
- Keep handset out of heavy rain.
- Do not let liquid-exposed handset remain wet; exposure to cold may freeze liquid causing malfunctions.

## Maintaining Waterproof Performance

- Do not subject handset to strong shocks or impacts; do not poke Microphone, Earpiece, Speaker, etc. with a cotton swab or sharp object;
- Port Cover and gasket play the important role of maintaining waterproofness. Do not remove or damage them. In addition, do not allow foreign particles to adhere to them.
- Do not insert sharp objects into Port Cover gaps; may damage gasket and affect water resistance.
- Do not leave Port Cover bent back for prolonged periods of time to plug in Earphone Microphone or Charger. It might deform Port Cover affecting waterproofing.
- If Port Cover gasket is damaged or deformed, replace it with a new one.
- To maintain water resistance, replace gaskets every two years regardless of their condition. For gasket replacements, contact a SoftBank Shop.
- Damaged Battery/Port Cover affects water resistance; contact a SoftBank Shop.

## Charging Precautions

- Battery and optional accessories are not waterproofed. Avoid exposure to liquids or high humidity (e.g., precipitation, bath/shower room, restroom, etc.) ; may cause fire, electric shock or damage.
- Never charge battery while handset is wet; may cause fire or damage due to electric shock or short-circuit.
- Close Port Cover firmly after charging via External Device Port.
- Do not touch Charger with wet hands. Electric shock may occur.
- Do not use Charger in rooms in which water is regularly used (kitchen, bath/shower room, etc.); may cause fire or electric shock.

If handset gets wet, see "Drying Off Handset" (☞P.15-5).

If Port Cover becomes detached, see "Reattaching Port Cover" (☞P.15-6).

## Precautions Regarding the UV Checker

- To take correct measurements using UV Checker, aim UV Sensor at the sun two or three times.
- UV Checker may not take correct measurements due to interference by the weather or surrounding buildings.
- Use UV Checker as a reference ; measurements may not be accurate.
- Correct measurements might not be taken if UV Sensor is soiled (fingerprints, foreign particles, etc.).
- Be aware that UV Sensor might be damaged by drastic temperature fluctuations.
- UV Sensor may not function if handset is dropped, or suffers a strong impact.
- Do not allow UV Sensor to remain exposed (handset open) to strong sunlight and ultraviolet rays. Be aware that this might damage sensor.
- UV Checker will not function if handset is closed. Use with handset open.
- If UV Checker is successively used, it may not function normally.
- Area surrounding UV Sensor may become discolored due to prolonged usage. This is not a malfunction.

- UV Sensor does not function in water.
- Actual intensity of ultraviolet light may vary from UV Checker measurements. Always use sunblock lotion etc. to protect one's skin from ultraviolet rays.
- Even if UV Checker shows, "Not strong (You can safely spend time outdoors.)," this does not mean that UV conditions are safe.
- UV Checker measurement times may vary depending by environment and conditions.

## Copyrights

Copyright laws protect sounds, images, computer programs, databases, other materials for copyright holders. Duplicated material is limited to private use only. Use of materials beyond this limit or without permission of copyright holders may constitute copyright infringement, and be subject to criminal punishment. Comply with copyright laws when using images captured with handset camera.

The software contained in handset is copyrighted material; copyright, moral right, and other related rights are protected by copyright laws. Do not copy, modify, alter, disassemble, decompile, or reverse-engineer the software, and do not separate it from hardware in whole or part.

# SAR Certification

---

## **8405C meets the technical standards of Ministry of Internal Affairs and Communications (MIC) regarding radio wave absorption by a human body.**

These technical standards are established on a scientific basis to prevent radio waves emitted from wireless devices such as mobile phones that are used close to human head from affecting human health. These standards assure that the SAR (Specific Absorption Rate), an indicator of the amount of average energy absorbed in the side of a human head, must not exceed the permissive value of 2 W/kg\*. This value includes a substantial safety margin designated to assure the safety of all persons, regardless of age and physical size. The value is equal to the international guideline recommended by International Commission on Non-ionizing Radiation Protection (ICNIRP) that has a cooperative relationship with the World Health Organization (WHO).

The highest SAR value for 8405C is 0.183 W/kg. This value is obtained in accordance with the MIC testing procedure with the mobile phone transmitting at its highest permitted power level. While there may be differences in the SAR levels depending on phones, they all meet the MIC's permissible value. Because mobile phones are designed to employ the minimum power level required for the communication with the base station, the SAR of the phone during a call is usually below the maximum value.

For further information about SAR, please see the following Websites:

MIC: <http://www.tele.soumu.go.jp/j/ele/index.htm>

ARIB: <http://www.arib-emf.org/>

\*The guideline is defined by relevant laws and regulations associated with the Radio Law (No. 2 of Article 14 of Ordinance Regulating Radio Equipment).

## **SoftBank Mobile Body SAR Policy**

- \* Body SAR: The SAR value at the maximum transmission power when continuously talking with handset placed on the body and using earphone-microphone.
- \*\* Specific Absorption Rate (SAR) : The value measured when having talked continuously for six minutes.
- \*\*\* Placement on the body: Measurements are taken with the rear of handset facing the body at a distance of 1.5 cm as the ordinary handset position. In order to comply with radio frequency exposure requirements, use an accessory (e.g. belt clip, holster) that does not contain metallic parts to maintain a 1.5 cm separation between the body and handset.

For further information, see the following SoftBank Mobile Website:  
<http://www.softbankmobile.co.jp/ja/info/public/emf/emf02.html>

# European RF Exposure Information

---

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines.

These guidelines were developed by the independent scientific organization ICNIRP and include safety margins designed to assure the protection of all persons, regardless of age and health.

The guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2 W/kg and the highest SAR value for this device when tested at the ear was 0.737 W/kg\*. As mobile devices offer a range of functions, they can be used in other positions, such as on the body as described in this user guide. In this case, the highest tested SAR value is 0.183 W/kg.

As SAR is measured utilizing the devices highest transmitting power the actual SAR of this device while operating is typically below that indicated above. This is due to automatic changes to the power level of the device to ensure it only uses the minimum level required to reach the network.

The World Health Organization has stated that present scientific information does not indicate the need for any special precautions for the use of mobile devices. They note that if you want to reduce your exposure then you can do so by limiting the length of calls or using a hands-free device to keep the mobile phone away from the head and body.

\*The tests are carried out in accordance with international guidelines for testing.

## USIM Card

### Before Using USIM Card

Universal Subscriber Identity Module (USIM) Card is an IC card containing customer and authentication information, including handset number and limited storage for Phone Book entries and SMS. Install USIM Card to use handset; power off handset to insert/remove USIM Card.

USIM Card

Insert USIM Card into another compatible handset to access SMS and Phone Book entries saved on USIM Card. Note the following precautions regarding USIM Card usage and care (see USIM Card User Guide for details) :

- Avoid using excessive force when inserting/removing USIM Card.
- SoftBank Mobile is not liable for damages resulting from inserting USIM Card into IC card readers or other third party devices.
- Always keep USIM Card IC chip clean.
- Clean USIM Card IC chip with a soft, dry cloth.
- Do not attach labels to USIM Card; malfunction may result.

## Note

- USIM Card is the property of SoftBank Mobile.
- If USIM Card is lost or damaged, you will be charged for its reissue.
- Return USIM Card to SoftBank Mobile upon termination of subscription.
- Returned USIM Cards are recycled.
- USIM Card specifications may change without prior notice.
- If USIM Card or handset with USIM Card inserted is lost or stolen in Japan or abroad, immediately contact SoftBank Mobile Customer Center, General Information (☎P.15-31) to suspend service.
- Handset/USIM Card repairs, replacement, or upgrades may deactivate Chaku-Uta<sup>®</sup>, Chaku-Uta Full<sup>®</sup> or video files on handset/Memory Card.
- Back up USIM Card files. SoftBank Mobile is not liable for lost files.

## USIM Card Installation

## Note

- Inserting USIM Card with excessive force may damage it or handset.
- Do not misplace a removed USIM Card.
- To prevent damaging it, avoid touching IC chip when inserting or removing USIM Card. Do not touch battery contacts.
- Do not remove USIM Card while handset is powered on; handset may restart.
- Do not exert excessive force on USIM Tray. It may cause malfunctions or damage.

## Inserting

- 1 Remove Battery Cover/battery (☎P.1-6 Removing 1 to 3)
- 2 Pull out USIM Tray

- 3 With IC chip down, insert USIM Card into USIM Tray as shown

- 4 Push in USIM Tray

## Removing

- 1 Remove Battery Cover/battery (ⓍP.1-6 Removing 1 to 3)
- 2 Pull out USIM Tray
- 3 Gently slide USIM Card out with lifting up

## Battery & Charger

### Before Using Battery/Charger

Charge battery before first use of handset or after long periods of disuse.

#### Note

- Use specified Charger only.
- Battery must be inside handset to charge.
- When not in use, unplug Charger from outlet.

### Battery

- Long periods of disuse may affect battery's ability to hold a full charge. Charge battery at least once every six months while not in use. Otherwise, battery may become unusable.
- Depending on usage, bulges may appear near end of battery life; this does not affect safety.
- Handset uses a lithium-ion battery; charge battery anytime without damaging its ability to hold a charge.
- Do not charge battery under the following conditions:
  - In ambient temperatures beyond 5°C - 40°C
  - In high levels of humidity, vibration or dust (may cause malfunction)
  - Near a radio receiver (may cause feedback)
- Handset or Charger may warm while charging. This is normal, however, should they become very hot to touch, stop charging and contact SoftBank Mobile Customer Center, General Information (ⓍP.15-31).
- Battery is a consumable; replace it if operating time shortens noticeably.

## Battery Life

Battery time/life may be reduced by any of the following:

- Environmental Factors
  - Storing/using handset beyond 5°C - 40°C
  - Using handset in poor signal conditions
  - Debris on handset, battery or Charger Port
- Operational Factors
  - Camera use
  - Media Player use
  - Heavy use (e.g., for using messaging)
  - Digital TV use
- Settings
  - Using Slide show
  - Increasing **Brightness** or **Duration**
  - Using Media Player with Backlight set to **Always On**

## Battery Disposal

Do not dispose of exhausted batteries with ordinary refuse. Tape over battery terminals before disposal or take to a SoftBank Shop. Follow any and all regulations regarding battery disposal. Lithium-ion batteries are recyclable.

## When Battery Runs Out

When battery is weak, a warning appears and handset beeps. Charge or replace battery; otherwise handset will automatically turn off.

## Battery Installation

### Inserting

#### Note

- Gently insert battery to avoid damaging handset tabs.
- Without cover, battery may fall out. Attach Battery Cover before use.
- Strong impacts may damage Battery Cover.

- 1 Remove Battery Cover/battery (☞ P.1-7 Removing 1 to 2)
- 2 Fit battery into handset as shown

- 3 Replace Battery Cover

- 4 Lock Battery Cover Lever

#### Note

#### Maintaining Waterproofing

If handset is wet, wipe it off with a clean, dry cloth before removing Battery Cover or Port Cover. Clean foreign objects off gasket or handset before replacing Battery Cover or Port Cover.

Press down on Battery Cover edges (●); once completely sealed, move slider to LOCK position.

## Removing

Always turn handset off before removing battery. Never remove battery while Charger is connected.

- 1 Unlock Battery Cover Lever

- 2 Lift Battery Cover up and remove as shown

### 3 Lift battery up and remove as shown

### Charge Battery

- Use specified AC Charger ZTDAA1 (sold separately). In this guide, ZTDAA1 is referred to as "AC Charger."
- If handset is on while Charger is connected, battery indicator shows charge level, charging as follows: .  flashes when battery is fully charged. If handset is off, **Charging...** appears while charging and when battery is charged, **Battery full** appears. External Light illuminates in red while charging.
- An empty battery requires approximately 150 minutes to be charged with power off. Charging time may vary depending upon the ambient temperature.

### AC Charger

#### 1 Open Port Cover; with label down, insert Charger Connector into External Device Port

#### 2 Pull up AC Charger prongs and plug it into an AC 100V outlet

#### 3 When battery is charged, disconnect handset, close Port Cover, and unplug AC Charger

## USB Charge

Connect handset to PC via USB Cable to charge battery.

- 1 **Open Port Cover; with label down, insert USB Cable Connector into External Device Port**
- 2 **Insert USB Plug into PC USB port**
- 3 **When battery is charged, disconnect handset, close Port Cover, and remove USB Plug**
  - USB charging takes longer; charging time varies according to the PC. A weak battery may not charge via USB.

## Power On/Off

### Power On

- 1 Press  until Display illuminates
  - "Please wait..." and precautions for maintaining waterproofness appear.

Standby Display

- To confirm handset phone number, press  → .
- Your phone number appears in Account Details. Edit or use contents (➔P.1-10).
- When handset is left open and idle, Display automatically shuts down to conserve power. Adjust Backlight time (➔P.14-6).

- The first time Messaging, Yahoo!, etc. is pressed or a function requiring a network connection is activated, Retrieve NW info confirmation appears. Choose **Yes** and follow onscreen instructions.
  - Retrieve NW info confirmation appears after replacing USIM Card or executing **All reset**.
  - Retrieving Network Info sets date and time. Network Services (SMS, S! Mail and Yahoo! Keitai, etc.) are available.
  - Retrieve Network Info manually (➔P.14-26).
  - This guide describes operations with date and time set unless noted otherwise.

### Power Off

- 1 Press  until Display goes dark
  - SoftBank logo appears and handset powers off.

### Note

- For proper shut down, press  until Display goes dark.

## Account Details

Save your name, mail address, blood type, and other information as Account Details.

## Handling Precautions (Key Lock)

Note these precautions when handling handset.

- Activate Key Lock before putting handset in a pocket.
- When carrying AC Charger, retract plug blades. Do not pull/twist power cord; doing so may damage it.

Activate to prevent accidental operation when carrying handset in a bag or pocket, etc.

### 1 (1 + seconds)

- Key Lock activates.

- When Key Lock is set,  appears at top of Display. If any key is pressed, a guidance to cancel Key Lock appears.
- To cancel Key Lock, press  for 1+ seconds while guidance appears on Display.

## Minding Mobile Manners

Please take care not to disturb others when using handset.

- Turn your handset off in theaters, museums, and other places where silence is the norm.
- Keep your handset off aboard airplanes\*, inside hospitals, or in other places where handset use is prohibited.
  - \*If handset use is permitted, follow airline instructions for proper use.
- Refrain from using your handset in quiet places such as restaurants, hotel lobbies, or elevators.
- Observe announcements or posted instructions regarding handset use aboard trains, etc.
- Refrain from handset use that interrupts the flow of pedestrian or vehicle traffic.

Handset offers two manner-related modes.

- **Offline Mode**  
Temporarily suspends all handset transmissions. Other functions may be used.
- **Manner Mode**  
Mutes handset sounds and activates Vibration for all alerts, tones, and Alarms. Use Manner Key to activate or cancel Manner mode. In addition to Manner, handset features Normal, Drive, Meeting and Outdoor as the set Ringtone or operation sound.

- Activating Offline Mode or Manner mode mutes ringer. Alternatively, set Ringtone volume or Vibration ( P.14-4).

## Offline Mode

- 1  → *Settings* → *Call settings* → *Offline* → *On or Off*

- Power off handset in Offline Mode, confirmation appears. Choose **Yes** to power on handset in Offline Mode.

## Manner Mode

Cancel settings for Manner mode from current setting mode.

### 1 (1 + seconds)

- When Manner mode is active,  appears.
- Even if Manner mode is active, shutter click sounds for Camera.
- Press  for 1+ seconds to cancel Manner mode. Canceling Manner mode, returns handset to mode set before Manner was activated.

## Changing Mode Settings

Handset features five modes, including Manner.

- 1  (1 + seconds)
- 2 **Normal, Manner, Drive, Meeting, or Outdoor**

Select mode by usage; edit Normal mode or Manner mode settings as required (P.15-11).

Mode	Description
 Normal Mode*	All Sounds & Alerts settings apply
 Manner Mode	Mutes handset system sounds
 Drive Mode	Mutes ringer; plays Driving Message and activates Answering Machine for calls
 Meeting Mode	Mutes Ringtones & system sound
 Outdoor Mode	Maximizes tone volume

\*Normal mode indicator does not appear in Standby.

## Advanced

### Settings

## Security Codes

Phone Password, Center Access Code (Network Password) are required to use handset.

### Note

- **Write down Phone Password and Center Access Code (Network Password). If you lose a code, contact Customer Service (P.15-31).**
- **Do not reveal Phone Password and Center Access Code (Network Password) to others. SoftBank Mobile is not liable for damage caused by misuse of these codes by others.**
- **Entering incorrect Network Password three consecutive times locks Call Barring settings. To resolve, Network Password and Center Access Code must be changed. For details, contact SoftBank Mobile Customer Center, General Information (P.15-31).**
- **If Center Access Code (Network Password) was changed, to set Call Barring, input the new Center Access Code (Network Password).**

## Phone Password

The four-digit number (Default: 9999) is required to operate/change some handset functions.

- Entered Phone Password digits are represented with \*.
- If incorrect, an error message appears. Try again.
- Phone Password can be changed on handset (P.11-3).

## Center Access Code (Network Password)

Four-digit number specified at subscription; required for changing service subscriptions, for activating optional services, or for operating handset from landlines.

For changing Center Access Code (Network Password), contact SoftBank Mobile Customer Center, General Information (☎P.15-31).

## PIN Code

USIM Card features two security codes: PIN and PIN2.

### PIN Code

Use PIN (four- to eight-digit) to prevent unauthorized use of handset by others.

- Modify PIN with handset (☎P.11-3).
- When PIN Lock is activated, PIN entry is required each time handset is turned on or whenever USIM Card is re-inserted (☎P.11-4).

### PIN2 Code

PIN2 (four- to eight-digit) is required for resetting *Call time & cost* or editing *Set max cost limit*, etc.

- Modify PIN2 with handset (☎P.11-3).

## Canceling PIN Lock (PUK/PUK2 Code)

Incorrectly entering PIN or PIN2 three consecutive times activates PIN Lock limiting function access. Enter PUK (PIN Unlocking Key) Code to cancel PIN Lock.

For more information, contact SoftBank Mobile Customer Center, General Information (☎P.15-31).

### Note

- **Entering PUK or PUK2 incorrectly ten consecutive times activates PUK Lock, disabling handset. Note PUK and PUK2.**
- **PUK Lock cannot be canceled. Contact SoftBank Mobile Customer Center, General Information (☎P.15-31).**

## USIM Password

Use this code to authenticate a USIM Card. If USIM Password matches, USIM Card is valid. Set *USIM lock* to *On* to set USIM Password.

### Note

- **Emergency calls may not be possible outside Japan depending on available network, signal conditions or handset settings.**

## Emergency Location Report

When calls are placed to Police or other emergency agencies from handset, handset location information is automatically sent to the corresponding agency. Handset transmits location based on base station positioning information.

- Location accuracy may vary by geography or signal conditions. Always verify your location with address or nearby landmark.
- Base station positioning accuracy ranges from several hundred meters to ten kilometers. This information may differ from actual location due to distance of the closest base station location.
- This function is only available if the agency receiving an emergency call has implemented the infrastructure for receiving location information.
- If you hide Caller ID by dialing 184 before calling an emergency number, your location information is not sent. However, authorities may access this information when necessary.
- No subscription/Communication charges required.

## Messaging Basics

This handset supports S! Mail and SMS messaging. Learn how to send and manage text messages.

Use S! Mail to exchange long text messages with SoftBank and other E-mail compatible handsets, PCs and other mobile devices.

Send Graphic Mail and media files via S! Mail.

Use SMS to exchange short text messages with SoftBank handsets.

### Note

- S! Mail requires separate subscription.
- Maximum message size is increased to 2 MB. Sending messages might incur high Packet Communication charges depending on message size and your subscription.
- Messages created on handset may not appear on other party's handset correctly.
- Received Hangul messages are viewable.
- Hangul may be deleted from sent message or appear as spaces on other party's handset.
- Send message contains Hangul via E-mail; Hangul may be deleted even if message are sent to Hangul compatible mobile phone.

	S! Mail <sup>1</sup>	SMS
Entry Items		
Address	○	○
Subject	○	×
Attachment	○	×
Text	○	○
Character Limit	Up to 15,000 double-byte 30,000 single-byte characters (30 KB) <sup>2</sup>	Up to 70 single-/double-byte characters, or up to 160 single-byte alphanumeric <sup>3</sup>
Recipient	SoftBank mobile phones, other E-mail compatible mobile phones, PCs	SoftBank handset
Contents	Long text message, image, sound, Graphic Mail, and Feeling Mail <sup>4</sup>	Short text message Transmit text, pictograms, and symbols, etc.

<sup>1</sup>Maximum message size is 2 MB including address, subject, message text, attachments, etc. (This applies to replay and forward S! Mail messages). Change the limit for sending message size to 300 KB.

<sup>2</sup>Limit for text entry varies with attachment size etc.

<sup>3</sup>When *Char-code* is set to *GSM 7 bit* (P.14-16).

<sup>4</sup>Exchange Feeling Mail only with compatible handsets.

## Customizing Mail Address

Change the alphanumeric before the @ in the address (account name).

Default: Account name consists of random alphanumeric.

For details, see SoftBank Mobile Website (<http://mb.softbank.jp/en/>).

Customizing mail address may help reduce spam.

- 1  → **Settings** → *Custom mail address*
- 2 **Select English** → **Follow onscreen instructions**
  - After customizing mail address, SoftBank sends a confirmation message.
- 3  → **Received msg.** → **Select a folder** → **Select message from Information** → *Yes*

### Advanced

#### Settings

- Customize/Change Handset Mail Address (☎ P.14-12)

## Creating/Sending Messages

Drafts and sent messages are saved in different folders.

Sent messages appear in Sent msg. and drafts in Drafts.

Create and send S! Mail/SMS, Graphic Mail, and attach files.

### S! Mail

#### Note

- Sending messages might incur high Packet Communication charges depending on message size and your subscription. Set *Max creation size to 300KB* to limit message size (☎ P.14-15).
- Messages containing Hangul characters or attachments with Hangul characters are converted to UTF-8 character encoding. Character encoding remains as UTF-8 even if Hangul characters are deleted from message. If character encoding is UTF-8, Graphic Mail and Auto art will be unavailable.
- If Hangul characters are entered in a message containing Japanese characters, Japanese characters in message are converted to UTF-8 character encoding, and character count of Japanese characters increases by 1.5 times. If character count exceeds limit, Hangul characters cannot be entered.

- Hangul characters are viewable only when other party uses Hangul compatible mobile phone.
- Enter phone number in Recipient to send S! Mail containing Hangul characters. If mail address is entered, Hangul characters will not be viewable.
- For Graphic Mail:
  - If text to be inserted (Notepad, Phone Book etc.) contains Hangul characters, Hangul characters will be deleted.
  - If attachment file name is Hangul, file name will be converted to *nonamexx* (xx is number).
  - If part of attachment file name is Hangul, Hangul characters will be deleted.

## Incoming Messages

Retrieve complete S! Mail messages automatically or manually.

Auto download: Mail Service Center sends complete S! Mail messages and attachments to handset. Manual retrieval: Mail Service Center sends S! Mail Notice.

Retrieve complete message as required. Learn how to receive, confirm, reply to, or forward text messages.

### Note

- Receiving messages might incur high Packet Communication charges depending on message size and your subscription. Set receiving options → *Auto receiving to Off* to receive part of message (☞P.14-15). Select message to receive whole message.
- Forwarding/reusing messages containing Hangul characters will convert to UTF-8 character encoding. Character encoding remains as UTF-8 even if Hangul characters are deleted from message. If character encoding is UTF-8, Graphic Mail will be unavailable.

## Viewing New Messages

When receiving new messages, in Standby, notification appears.

### Note

- **Default: Handset retrieves complete S! Mail messages, including attachments. Depending on your contract, retrieval may incur charges. Set Manual Retrieval (☞P.4-8).**
- **Default: Receiving options → Auto receiving to On (Up to 1MB)/On (Up to 300KB)**

## Internet Services

Access Mobile sites via Yahoo! Keitai or Internet sites via PC Site Browser.  
View Web page contents or download media files.

- In this guide, "Yahoo! Keitai" refers to SoftBank Mobile Internet portal and the service itself. "PC sites" are sites accessible via PC Site Browser. "Internet" refers to both Internet and Mobile Internet sites.
- Before using Internet, retrieve Network Information.

### Note

- Separate subscription is required for Internet services.
- Internet connections incur Packet Communication charges.

### Web Certificates (SSL/TLS)

Secure Sockets Layer (SSL) and Transport Layer Security (TLS) are encryption protocols for secure Internet transmissions of important/sensitive information (credit card numbers, etc.) and authentication.

Confirm electronic certificates saved on handset (P.5-10).

### Note

#### • Using SSL/TLS

**When a security notice appears, subscribers must decide for themselves whether or not to open a page.**

Opening secure pages constitutes agreement to the terms of usage, SOFTBANK MOBILE Corp., Cybertrust Japan Co., Ltd., Entrust Japan Co., Ltd., GlobalSign K.K., RSA Security Inc. and SECOM Trust Systems Co., Ltd., COMODO Japan Inc. are not liable for the security of SSL/TLS. No liability is assumed for any damage associated with SSL/TLS use.

## Opening Saved Pages

Retrieved Mobile Internet pages are temporarily saved in a cache. The cache remains even after a session ends or handset is turned off. When full, the oldest pages are automatically deleted to make room for new ones.

When a saved page is opened again, it may open from the Cache. For the latest content, reload the page.

- When another USIM Card is inserted, cache contents are automatically deleted.
- When a page with an expiry date is saved, the page is automatically deleted upon expiry.

## One Seg

One Seg is a terrestrial digital broadcast service supporting mobile television and Data Broadcasts in Japan. The six megahertz band assigned to each digital channel is divided into 13 segments: 12 dedicated to HDTV broadcasting and the remaining "One Seg" to mobile devices.

One Seg service began on April 1, 2006, in the three largest urban areas and 13 prefectures in Japan. For details, access the Association for Promotion of Digital Broadcasting Website:

- The Association for Promotion of Digital Broadcasting Website:  
<http://www.dpa.or.jp/english/PC>  
[http://www.dpa.or.jp/1seg/k/\(mobile\) Japanese](http://www.dpa.or.jp/1seg/k/(mobile) Japanese)

## Digital TV Precautions

Please confirm the following precautions before using TV.

- This handset supports One Seg terrestrial digital television broadcast service available only in Japan.
- Do not use TV while driving a vehicle or riding a bicycle. (mobile phone use while driving is prohibited by the revised Road Traffic Law since November 1, 2004.) For TV use while walking, road safety precautions should always apply.
- Incoming transmissions may affect audio/visual signal. Use of another handset near this handset may also affect TV.

## Reception

Digital TV may not be viewable in the following places:

- Too far from or too close to broadcasting stations.
- In mountainous areas or near tall buildings.
- Aboard trains or in moving vehicles.
- Near high-voltage lines, neon lights, or wireless base stations.
- Near railroad tracks or highways.
- In underground shopping malls or tunnels.
- Anywhere jamming signals are broadcast or reception is blocked.

## Battery

When battery level is , Digital TV is not available.

- If battery runs out while watching, TV automatically ends.

## Charging

Charge battery while viewing Digital TV.

- Use specified Charger only.
- Keep Charger cord away from Antenna; may cause interference.
- Charging takes longer when TV is active.

## TV Timer/TV Timer Recording

Save up to five time slots. However, if *Once* is selected under data in *Date*, only TV programs within one week can be recorded/reserved with timer. Set each time slot for up to 72 minutes of recording to handset and 12 hours of recording to Memory Card per one program. Note that 12 hours of recording requires a 2GB Memory Card.

### Precautions for Timer Recording

- End the current operations.
- Confirm battery is adequately charged (or record while charging).
- Check that there is enough free space on Memory Card.

### Saving Location for Recorded Programs

- If the saving location for recording video is set to Memory Card without Memory Card inserted, it will be saved in handset.
- If there is not enough free space in set saving location (phone or Memory Card), recorded video is saved in an alternative location (Memory Card or phone).

### Start/End Time

Digital TV receives programs slightly after scheduled start time; recording may start before reserved program.

Recording ends a few seconds after Timer end time.

### Via EPG ( P.6-5)

## Capturing Image, Recording Video & Editing

Use handset camera to capture images and record movies.

### Capturing Images & Recording Video Clips

Select Scene, Multi Shot, etc. to capture image/video (P.7-3).

Record up to an hour per clip (P.7-9).

### Editing Images

Editing images, etc. (P.7-11).

### Note

- Use a dry soft cloth to remove debris from camera lens cover.
- Avoid camera shake; hold handset steady or put it on something stable place and use Self-timer to prevent objectionable image blur.
- Do not expose handset to devices with static electricity when using camera.
- Camera employs high precision technology, however, some pixels may seem brighter or darker than others.
- Leaving handset in a hot place for an extended period before capturing/saving image may affect image quality.
- Exposing lens to direct sunlight may affect image color.
- When battery is low, camera may be unavailable.

### Variety of Capturing Mode

Choose applicable mode; Multi shot, Scene, Panorama shot etc., according to conditions (P.7-3).

### Creating Flash®

Use Still Image in Data Folder to create Flash® (P.7-12).

## Camera

For capturing still images, select Shooting mode: **Normal** to shoot single image and **Multi shot** or **Photo combi** to shoot multi-shot.

Captured images are saved to Pictures. Insert Memory Card to save images to Digital camera.

## Barcode Reader

Use Camera to scan printed barcodes, QR Code or barcode images acquired from websites, etc.

### Scan Barcodes/QR Code

Barcode Reader automatically identifies and scans Barcodes (JAN code) and QR Codes. Use scanned results for handset operations such as calling.

QR code

- 1  → *Tools* → *Convenient* → *Bar code reader* → *Scan barcode*
- 2 **Use Display to frame barcode** →  (Scan)
  - Camera focuses and scans barcode automatically.

- Alternatively, press  → *Camera* → *Bar code reader* to start scanning.
- Some barcodes may be invalid.
- Scan may fail if barcode is not clear.
- Indoors, scan may fail if handset shadows barcode.
- Scan may fail when capturing multiple barcodes.

- JAN codes are one-dimensional codes made up of combinations of vertical bars of varying widths and spaces. Handset is not compatible with other 1D codes (e.g., ITF code, Code39, or Codebar/NW-7).
- QR Code is two-dimensional code with information in matrix.
- Hold handset approximately ten cm away from barcode. If it does not scan, move handset slowly to adjust the distance to fix focus.
- Press  (Macro) to set/cancel macro.
- To save the scanned result, press  (Save). To check the saved barcode, press  → Scanned result.
- To scan multiple barcodes continuously, after activating Barcode Reader, press  → Continuous scan. Choose **Yes** to scan the next barcode.
- Split barcodes cannot be opened or saved unless all split barcodes are scanned.
- You can use any phone numbers, mail addresses, or other items for Phone Book entries if they are contained in the scanned data (P.10-18). For usable information, the background color of the text turns light blue; however, if the text contains any character that is not allowed to use that information, the background area for the following characters does not turn light blue.
- Use QR Codes for text only. Handset cannot scan QR Codes created from media files.

## Using Barcode Files

Use a barcode file saved in Data Folder.

- 1  → **Tools** → **Convenient** → **Barcode reader** → **Open barcode** → **Select an item**
  - With Memory Card inserted, select a file from Pictures or Digital Camera folder.

## 2 Select a file

- For split barcodes, once one portion is scanned, the rest is automatically recognized and scanned. If file name or saved directory of a split barcode has been changed, select unrecognized part to be scanned.
- Barcode with changed file size might not be scanned.
- If barcode is unrecognizable, notification appears.

## Creating QR Code

Use Phone Book entry or enter text to create QR Code.

- A QR Code holds up to 211 single-byte or 105 double-byte characters.
- When volume of information is large, a split QR Code automatically appears (up to 16 QR Codes).
- Created QR Code is saved in Pictures in Data Folder. Check saved QR Code in Data Folder (P.10-9).

### Restoring Default Settings

Clear Phone Book entries; restore function settings to defaults.

## Changing Phone Password

There are two security codes; Phone Password and PIN/PIN2.

### Changing Phone Password

Default: Phone Password is set to "9999".

- 1  → *Settings* → *Security* → *Change password*

- 2 Enter current Phone Password →  (OK)
- 3 Enter new Phone Password (four to eight-digit) →  (OK)
- 4 Enter new Phone Password again →  (OK)

### Advanced

#### Settings

- Change Phone Password (☞ P.14-24)

## Changing PIN/PIN2

- 1  → *Settings* → *Security* → *Change PIN or Change PIN2*
  - Set *PIN certification* to *On* to enable PIN code (☞ P.11-4).
- 2 Enter current PIN or PIN2 →  (OK)
- 3 Enter new PIN or PIN2 (four to eight-digit) →  (OK)
- 4 Enter new PIN or PIN2 again (four to eight-digit) →  (OK)

## Phone Lock

The following lock functions are available:

- Phone Lock
- Password Lock
- PIN Certification
- USIM Lock
- Secure Remote Lock

### Activating/Canceling Phone Lock

Activate this function to require Phone Password each time handset is powered on.

- 1  → *Settings* → *Security*
- 2 *Phone lock* → *On or Off*
- 3 Enter Phone Password →  (OK)

- All operations including receiving calls are not accepted unless you enter Phone Password.

## Password Lock

After Password Lock is activated, in Standby, press any key to show Phone Password entry window. Enter Phone Password to unlock.

- 1 → *Settings* → *Security*

To activate PIN Certification each time the power is turned on, set this function to *On*.

### Setting

- 1 → *Settings* → *Security*
- 2 *PIN certification* → *On or Off*
- 3 Enter PIN → (OK)

## Canceling

If PIN or PIN2 is incorrectly entered three consecutive times, PIN Lock or PIN2 Lock is activated to restrict handset operations.

### Note

- For more information about PUK and PUK2, contact SoftBank Mobile Customer Center, General Information (P.15-31).
- Entering incorrect PUK Code ten consecutive times locks USIM Card (turning handset off does not reset the count).
- Once locked, USIM Card cannot be unlocked. Contact SoftBank Mobile Customer Center, General Information (P.15-31).

To cancel PIN Lock or PIN2 Lock, perform following operations.

- 1 In PUK Code entry window, enter PUK Code → (OK)
- 2 Enter new PIN or PIN2 (four- to eight-digit) → (OK)
- 3 Enter new PIN or PIN2 again (four- to eight-digit) → (OK)

## File Transfers & Backup

Transfer files via Infrared, etc. Use S! Addressbook Back-up (SAB)\* to back up handset Phone Book entries.

\*S! Addressbook Back-up requires separate subscription.

### File Transfers

Use these functions to transfer handset files:

- Infrared (P.13-3).
- USB Connection (P.13-4).

### File Backups

Back up handset files to Memory Card or PC (P.13-5).

Back up Phone Book entries to Server via S! Addressbook Back-up.

Restore lost Phone Book entries from S! Addressbook Back-up.

Edit SAB via PC (P.13-7).

## Infrared

Exchange files wirelessly with infrared-compatible handsets, PCs or other devices.

- Handset Infrared is based on IrMC1.1.

Transmission may be unavailable for some functions, even when IrMC1.1 is supported on the other party's handset.

- Transmissions may be inhibited in direct sunlight, under fluorescent lighting or near infrared devices.
- Send and receive Phone Book entries or Calendar entries, Account Details, Schedules, Tasks, still images, videos, sound files, music files, and others. Send either all Phone Book entries, Calendar/Tasks or Bookmarks/Notepad/Received msg./Drafts/Sent msg. in a single transfer.
- Authorization Code is a four-digit code used to execute infrared file transfers between devices. Enter same Authorization Code on both devices when using Transfer All.

### Note

- Infrared is unavailable while Internet services is in use, or while editing messages/files.
- Some received files cannot be saved on handset.

## Aligning Infrared Ports

- Place devices within 30 cm. Align device ports. Do not place objects in between devices.

Within 30cm

Infrared Port

- Maintain port alignment until transmission ends.
- A soiled port may inhibit transmission. Clean port with a soft cloth beforehand.
- If transfer fails, a confirmation appears. Review "Aligning Infrared Ports," choose **Yes** to try again.

## Sending Files

First, activate Infrared on the other device.

### Sending Items One at a Time

#### 1 Send

- In list, press → **Send** → **Via infrared**  
→ Select item → (Send).

- Some functions allow sending from Details/Playback window.

### Transferring All

#### 1 → **Infrared** → **Transfer all**

#### 2 Enter Phone Password → (OK)

#### 3 **Phonebook, Calendar/Tasks, Bookmarks, Notepad, Received msg., Drafts or Sent msg.**

- For **Phonebook**, choose **Yes** to transfer images.

#### 4 Enter Authorization Code (four-digit) → (OK)

## Receiving Files

### Note

- Files cannot be received when Key Lock is active or during Software Update.

## Receiving One Item at a Time

-  → **Infrared → Receive**
  - Handset is ready to receive files.
- Begin sending from other device within three minutes**
- Save confirmation appears, choose *Yes***
  - To save image file, choose **Pictures** or **Mail Art**.
  - To save pictograms, choose **Pictures, Mail Art** or **My Pictograms**.
  - To save Flash® files, choose **Flash®** or **Flash® Ringtones**.
  - Press  (Cancel) to cancel receiving.
  - Press  to terminate data reception.

- If vcf file contains incoming image exceeding 100KB, handset deletes the image then saves it in Phone Book.

## Receiving All

-  → **Infrared → Receive**
  - Handset is ready to receive files.
- Begin sending from other device within three minutes**
- Enter Authorization Code (four-digit) →  (OK)**
  - Enter same Authorization Code as sender.
- Select a saving method**
  - To Add Files as New Entries**  
*Add new*
  - To Overwrite Current Entries**  
*Delete & Overwrite → Yes → Enter Phone Password →  (OK)*
    - Receiving all entries deletes existing handset entries except for Account Details. Receiving Account Details deletes existing Account Details except for handset phone number.
    - Press  (Cancel) to cancel receiving.
    - Press  to terminate reception.

## Advanced

### Settings

- Receive Infrared Transmission ( P.14-26)
- Transfer Account Details ( P.14-26)
- Transfer Files ( P.14-26)
- Transfer All Phone Book Entries, Calendar/Tasks, Bookmarks, Notes or Messages at Once ( P.14-26)

## USB Connection

Connect handset to PC to transfer files between devices.

Handset supports USB 2.0.

Install Samsung New PC Studio and USB driver first. For installation instructions, PC operating environment, etc., access SAMSUNG Website (<http://jp.samsungmobile.com/pc/lineup/840download.html>).

## USB Connection

The following operations are available:

- Transfer handset Data Folder files to PC
- Import PC files and save to Data Folder
- Perform Packet Communications

### Note

- Using handset to access the Internet via PC or PDA (Mobile Data Communication) rapidly incurs high Packet Communication charges. Take notice of large Packet Communications when using Mobile Data Communication.**

## Sending/Receiving in Mass Storage

With Memory Card inserted, connect handset to PC via USB Cable to manage card files on PC.

### Connecting/Disconnecting to a PC

- 1 **Connect handset to PC via USB Cable**
- 2  → *Settings* → *Connectivity* → *Mass storage* → *Yes*
- 3 **Enter Phone Password** →  (OK)
- 4 **Use PC to access Memory Card files**
  - Mass Storage is unavailable while receiving S! Mail, or using Samsung New PC Studio.
  - Calling and Messaging are unavailable in Mass Storage.
- 5 **On PC, perform device removal**
- 6 **In Mass storage,  (Exit)**
- 7 **Disconnect USB Cable**

#### Note

- Never disconnect USB Cable before safely removing device from the PC first.

### Advanced

#### Settings

- Activate Mass Storage ( P.14-26)

## Memory Card Backup

Back up Phone Book entries, etc. to Memory Card (package backup). Restore backed up items as required (package restoration).

- Restore from Backup in case of accidental data loss.
- Backups are saved by type (transfer date is file name).
- Available Backup types
  - Phone Book
  - Calendar
  - Tasks
  - Received msg.
  - Drafts
  - Sent msg.
  - Unsent msg.
  - Notepad
  - Contents keys
  - Bookmarks

• Use Backup to save files, share information between Memory Card-compatible handsets, or move files to a newly purchased handset.

### Backup Precautions

- Not available when battery is low.
- During backup or restoration, handset transmissions are not possible.
- Some files cannot be backed up. Some backed up files may not be usable on other SoftBank handsets or PCs, etc.
- Backup may fail if handset/Memory Card memory is too low.
- Handset holds up to 500 Calendar/Tasks entries. When 500 entries are restored from Memory Card, a confirmation appears and extra entries are not saved.

- Yahoo! Keitai, PC Site Browser bookmarks are backed up.
- If a backed up bookmark is too large it may not be restorable.
- Some images set to Phone Book entries may not be transferred because of size.
- Backup data saved on Memory Card is not accessible on handset until restored from Memory Card.
- When backing up Content Keys, note the following:
  - Backup file can hold only one Content Key at a time. To back up another Content Key, a confirmation appears and the previous backup file is overwritten (to keep the previously backed up files, restore the Content Key to handset from Memory Card and then perform backup again).
  - Restoring a file with a Content Key to handset adds the Content Key to handset without overwriting any existing Content Keys on handset.

### Backing up to Memory Card Manually

- 1  → *Settings* → *Backup & Restore* → *Backup*
- 2 *Yes* → *Enter Phone Password* →  (OK)
- 3 *Phonebook, Calendar, Tasks, Received msg., Drafts, Sent msg., Unsent msg., Notepad, Contents keys or Bookmarks*
- 4 Confirmation appears, choose *Yes*
  - Press  (Cancel) → *Yes* to cancel backup.
  - If *Contents keys* backup file already exists, an overwrite confirmation appears. Press  (Yes) to overwrite the file.

## S! Addressbook Back-up (SAB)

Back up handset Phone Book entries on Server or synchronize handset Phone Book entries with SAB. Restore lost handset Phone Book entries from SAB.

## Before Using S! Addressbook Back-up

### Note

- SAB use requires separate subscription.
  - Connections between handset and SAB (Backup, Restore, or Update) incur Packet Communication charges.
  - If you should change handsets, select an SAB compatible handset to take over SAB entries.
  - After an application, when Network Information is retrieved\*, *Auto Sync Settings* will be *On* automatically. After editing Phone Book, backup will start automatically.
  - Even after *Auto Sync Settings* is set to *Off*, if Network Information is retrieved Auto Sync will be initialized and set to *On*.
  - Confirm *Auto Sync Settings* is set to *Off* after canceling the services.
- \**Sync mode* will be set to *Normal*. Auto Sync starts about ten minutes after editing of Phone Book has begun.

## Precautions for Synchronizing

Available synchronization modes are as follows.

Sync Mode	Description
Normal	Backs up handset entries and updates SAB. If handset Phone Book entry and SAB entry item are both updated, SAB entry item takes priority.
Sync from Client	Backs up updated handset entries.
Backup	Deletes SAB entries and uploads handset entries.
Sync from Server	Downloads updated SAB entries to handset.
Restore	Deletes all the latest handset entries and downloads SAB entries to handset (only the 840SC).

• Synchronizing in *Normal* mode is performed regardless of Sync mode setting when using SAB for the first time or the last Sync was not completed correctly by canceling, etc.

- These items cannot be synchronized with SAB; using Restore for these items will delete them from handset:
  - Picture
  - Ringtone settings, Vibration settings (Voice Call, Video Call, or Message)
  - Blood type

- Select backup/restore timing and Sync mode carefully to avoid accidental entries deletion.
  - Delete all handset entries then select *Normal*, *Sync from Client*, or *Backup* to delete all SAB entries.
  - Delete all SAB entries then select *Normal*, *Sync from Server*, or *Restore* to delete all handset entries.
- If number of entry items savable on handset varies from SAB, synchronization will reflect lower number.
- When SAB service is canceled, Phone Book entries on Server are deleted.

### Synchronizing Phone Book Entries

Connect to SAB to synchronize SAB entries with handset Phone Book entries.

#### Note

- Starting Sync connect to network. Packet Communication charges apply. Network connection is automatically disconnected with synchronization.

- 1  → *Phone* → *S! Addressbook Back-up* → *Start sync*
  - Synchronize in *Normal* mode.
  - If synchronize in *Sync from Client/Backup/Sync from Server/Restore* mode, press  → *Phone* → *S! Addressbook Back-up* → *Details* → *Backup/Restore* → Select an item.
  - Alternatively, press  → *Entertainment* → *S! Addressbook Back-up* → *Start sync*.

### Setting Auto Sync

If *Auto sync settings* is set to *On*, setting frequency and Sync mode are required.

- 1  → *Phone* → *S! Addressbook Back-up* → *Details* → *Auto Sync Settings*
  - Alternatively, press  → *Entertainment* → *S! Addressbook Back-up* → *Details* → *Auto Sync Settings*.
- 2 *On/Off* → *On*
- 3 **Set items**
  - **To Back up Once a Month**  
*Every month* → In Date field, enter date → In Time field, enter time →  (OK)

## Drying Off Handset

If handset gets wet, follow these steps to dry it:

- 1 Wipe handset surface with dry cloth
- 2 Firmly grasp hinges, and shake handset about 20 times

- 3 Pat dry cloth on grooves (Microphone, Earpiece Speaker, etc.) to remove moisture

- 4 Leave handset for approximately two to three hours at room temperature

## Reattaching Port Cover

If Port Cover becomes detached from handset, follow these steps to reattach it:

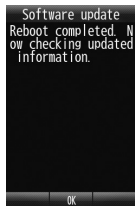

- 1 Follow steps illustrated below:

## Software Update

SoftBank releases firmware updates. Download as required.

- 1  → *Tools* → *Convenient* → *Software update*
- 2 *Software update* →  (YES)
  - Handset connects to network.
- 3 *Yes*
  - Read *Terms of Use* before selecting *Yes*.
- 4  (OK)
  - Update starts. When complete, handset powers off and restarts; notification appears.

- For procedures, contact SoftBank Mobile Customer Service.
- Confirming/downloading updates does not incur fees.

### Note

- Charge battery beforehand; if low, update may fail.
- If Scheduled Update Time arrives while handset is out-of-range, Software Update is canceled.
- Remain within strong, stable signal conditions.
- Handset Phone Book entries, media files, and other contents are not affected by software updates, but always back up important information (note that some files cannot be copied). SoftBank Mobile is not liable for damages from lost information, etc.
- Handset transmissions are disabled during update.
- Update may take some time to complete.
- Update failure may disable handset. Contact SoftBank Mobile Customer Center, Customer Assistance (☎P.15-31).
- If updated handset fails to restart, remove and reinsert battery then power on. If this fails, call SoftBank Mobile Customer Center, Customer Assistance (☎P.15-31).

## Specifications

Handset specifications may change without prior notice.

### SoftBank 840SC

Item	Specification
Weight*	120.8 g
Continuous Talk Time*	3G Voice Call: 240 minutes 3G Video Call: 130 minutes
Continuous Standby Time* (Display off)	3G Network: 400 hours
Dimensions (W x H x D)*	50.0 x 109.95 x 15.4 mm
Maximum Output	0.25 W

\*Approximate value

- Handset with battery installed.
- Battery Time is calculated by SoftBank Mobile under stable signal conditions. Calling in poor signal conditions or leaving handset on out-of-range will consume more power and may reduce Battery Time by more than half.
- Frequent handset operations requiring Backlight (e.g., Yahoo! Keitai) may reduce Continuous Talk Time and Continuous Standby Time.
- Using video for Wallpaper may significantly reduce Continuous Talking and Continuous Standby Time.
- Continuous Talk Time is an average measured with a battery in stable signal conditions. Continuous Standby Time is an average measured with a new, fully charged battery with handset closed without calls or operations, in Standby, in stable signal conditions. Alternating between usage and Standby shortens Continuous Talk Time and Continuous Standby Time. Talk Time/Standby Time may vary by environment (battery status, ambient temperature, etc.).

## Warranty & Service

Headset specification may change without prior notice.

### Warranty

Handset purchase includes Warranty.

- Confirm shop name and date of purchase.
  - Read through the contents of the Warranty and keep it in a safe place.
  - The warranty period can be found in the Warranty.
- SoftBank Mobile is not liable for damage to you or a third party from missed calls, etc. due to handset failure or malfunction, etc.

### Repair Requests

Before submitting handset for repair, consult "Troubleshooting" (☎P.15-2) for a solution. If a problem persists, contact SoftBank Mobile Customer Center, General Information (☎P.15-31) or the nearest SoftBank Shop; be prepared to describe problem in detail.

- During the warranty period, repairs will be made under the terms and conditions described in the warranty.
- After the warranty period, repairs will be upon request; if said repairs can be made, you will be charged for them.

### Note

- **Handset files and settings may be lost or altered due to accidents or repairs. Keep a copy of important files, etc. like Phone Book entries. SoftBank Mobile is not liable for damage resulting from accidental loss or alteration of handset files (Phone Book, Data Folder, etc.) or settings.**
- **Disassembling or modifying this product may be a violation of the Radio Law. Note that SoftBank Mobile will not accept repair requests for disassembled or modified products.**
