Media Player & S! Applications

Media Basics

Use Media Player to play music/video on 840SH.

- Download media files from Mobile Internet sites via Media Player directly.
- Transfer PC music files and save them on Memory Card.

Music File Support

My Music

(Handset/Memory Card)
Downloads/Transferred Files

Video File Support

My Videos

(Handset/Memory Card)
Downloads/Recorded Files

Playback Precautions

- Media Player is not compatible with some recording/playback formats. Files may not play depending on the Memory Card status.
- Playback stops for incoming calls.
- If battery is low, Media Player will not play. Playback stops if battery runs low during playback.
- Turn down the volume if distortion is noticeable in Speaker sound.

Compatibility

- Files transferred from PCs cannot be used as ringtones or System Sounds.

Streaming

- Handset plays media while it downloads.
 - Packet transmission fees apply even while stream is paused.
 - Downloaded content cannot be saved.

Downloading Media Files

Download media files from the Internet. Read information (price, expiry date, etc.) on the source site.

- Follow the links to download media.

Saving Music Files from PCs

- Use software to convert music file format.
- For software usage and specifications, see the provider's website, etc.
- SoftBank Mobile does not guarantee compatibility with any software.
- USB Cable may be purchased separately.

Handling Transferred Files

- Copyright laws limit duplicated material to private use only.
- Files created with PC software, etc. may not play.
- Comply with copyright and other intellectual property laws when using obtained files.

Saving AAC Files

Convert PC music files to 840SH-compatible format (P.14-20), then save to corresponding Memory Card folder (P.14-22) via Mass Storage. Install USB Cable driver beforehand.

Playing Music

1

2 *My Music* **Select tab (folder)**

3 *All Music*

4 **Select file**

Music Playback Window

- Album art appears for compatible Chaku-Uta Full® files.

Using Other Functions while Playing Music

After , or

- To stop playback, follow these steps in Standby:

Searching Music Files

After , **Search** **Enter search text**

Lyric Display-Compatible Files

- Press to display lyrics.

Music Playback Operations

Replay	(Long Press: Rewind*)
Skip Forward	(Long Press: Fast Forward*)
Volume Down	(Long Press: Mute)
Volume Up or Cancel Mute	
Pause	
Stop	In Pause,
Open Help	

*Release for playback.

Music Playback Window Description

1	Title	6	Elapsed time
2	Artist name	7	Volume
3	Track number	8	Information link
4	Status	9	Sound Effects
5	Playback Mode		

Advanced

- Resuming from stopped point
- Specifying start point
- Accessing linked information
- Playing repeatedly or randomly
- Changing Sound Effects (P.7-8)

Playing Video

1

2 *My Videos*

3 *All Videos*

4 *Select file*

Video Playback Window

5

Searching Video Files

After *Search*

At Alarm Time

- Playback pauses.

Video Recorded on Other Devices

- Video image may appear rotated.

Video Playback Operations

For pause, volume up/down or help, see P.7-4 "Music Playback Operations."

Replay	(Long Press: Rewind*)
Skip Forward	(Long Press in Pause: Advance Frame, Long Press: Fast Forward*)
Toggle Display Size	

*Release for playback.

Video Playback Window Description

1	Title	6	Elapsed time
2	Author name	7	Volume
3	Clip number	8	Information link
4	Status	9	Sound Effects
5	Playback Mode		

Advanced

- Resuming from stopped point
- Specifying start point
- Accessing linked information
- Playing repeatedly or randomly
- Changing Sound Effects
- Changing playback size
- Setting Backlight status
- Hiding linked information (P.7-8)

Using Playlists

Playlists store playback orders. Add favorite media files to Playlists, or organize files by artist/genre. Playlists store only file locations. Source files remain in All Music or All Videos.

Adding to Playlist

Follow these steps to add a music file to **プレイリスト 1**:

1 ➔ **Media** ➔ ➔ **Music**
➔

2 **My Music** ➔

Playlists Window

3 **All Music** ➔ ➔ **Select file**
➔

4 **Add to Playlist** ➔ ➔ **プレイリスト 1** ➔

Renaming Playlists

1 **In Playlists window, select Playlist** ➔

2 **Edit List Title** ➔ ➔ **Enter name** ➔

Advanced

- Organizing Playlists ● Sorting files ● Opening properties ● Downloading Contents Keys (P.7-9)
- Organizing Playlists ● Sorting files ● Downloading Contents Keys ● Opening properties (P.7-9)

Using S! Applications

Try out the preloaded S! Applications or download and use 840SH-compatible S! Applications, including games. Refer to the S! Application's help menu or the source Internet site, etc. for operational instructions.

1   **S! Appli** 

2 **S! Appli Library** 

S! Appli Library

3 **Select application** 

Network S! Applications

- A message appears indicating that Internet connection is required. Follow onscreen instructions.

Incoming Calls

- Incoming calls automatically pause S! Application.

Exiting S! Applications

1 

2 **End** 

Pausing S! Applications

In  **Suspend** 

Resuming S! Applications

  **Resume** 

- Select **Cancel** to open Main Menu and keep the S! Application paused. (Additional function activation may be disabled depending on the S! Application.)
- Select **End** to exit the S! Application.

Advanced

-   Downloading S! Applications
-   Adjusting S! Application sound volume
-   Canceling surround effect
-   Setting handset responses to incoming transmissions
-   Setting S! Application to activate in Standby
-   Setting Permissions
-   Opening properties (P.7-10)
-   Moving S! Applications to Memory Card
-   Changing S! Application settings
-   Deleting S! Applications
-   Restoring default S! Application settings
-   Restoring default S! Appli Library
-   Synchronizing Memory Card S! Applications with 840SH
-   Opening Java™ license information (P.7-11)

Music

? How do I delete files in All Music?

- Delete All Music files in My Music via Data Folder (Music or Ring Songs-Tones).

Video

? How do I delete files in All Videos?

- Delete All Videos files via Data Folder (Videos).

? Cannot play video files

- Files created with PC software, etc. may not play.

S! Applications

? Cannot move S! Applications to Memory Card

- Memory Card memory may be low or the S! Application may already be saved.

? S! Applications do not pause for incoming transmissions despite *Calls & Alarms* settings

- Regardless of setting, a notice appears for Screensaver S! Applications.
