

Introduction

Thank you for purchasing SoftBank 920SH.

- For proper handset use, read this guide beforehand.
- Keep this guide in a convenient place for reference.
- Accessible SoftBank services may vary by service area, subscription, etc.

SoftBank 920SH is compatible with both 3G and GSM network technologies.

Notes

- Copying this guide in whole or part without authorization is prohibited.
- Guide content is subject to change without prior notice.
- Efforts have been made to ensure the accuracy and clarity of this guide. Please contact Customer Service, General Information (**P.14-38**) about unclear or missing information.

Accessories

■ Battery (SHBBG1)

■ USB Cable (Complimentary sample)

■ Headphones (with Microphone) (Black, SHLBG1)

■ Utility Software (Japanese) (Complimentary sample)

Use specified Charger (sold separately) only.

- For accessory-related information, please contact SoftBank Customer Center, General Information (P.14-38).
- In this guide, Headphones (with Microphone) is referred to as "Headphones."
- Utility Software is designed exclusively for 920SH. Download newest versions via SOFTBANK MOBILE Corp. Website (P.14-21).

Safety Precautions

- Read safety precautions before using handset.
- Observe precautions to avoid injury to self or others, or damage to property.
- SoftBank is not liable for any damages resulting from use of this product.

Before Using Handset

■ Symbols

Make sure you thoroughly understand these symbols before reading on. Symbols and their meanings are described below:

DANGER

Great risk of death or serious injury from improper use

WARNING

CAUTION

Risk of injury or damage to property from improper use

Prohibited Actions

Compulsory Actions

Attention Required

DANGER

Handset, Battery & Charger

Use specified battery and Charger only (P.v, P.1-7).

Non-specified equipment use may cause malfunctions, electric shock or fire due to battery leakage, overheating or bursting.

Do not short-circuit Charger terminals.

Keep metal objects away from Charger terminals. Keep handset away from jewelry. Battery may leak, overheat, burst or ignite causing injury. Use a case to carry battery.

Battery

Prevent injury from battery leakage, breakage or fire. Do not:

- Heat or dispose of battery in fire
- Open/modify/disassemble battery
- Damage or solder battery
- Use a damaged or warped battery
- Use non-specified charger (P.1-7)
- Force battery into handset
- Charge battery near fire or sources of heat; or expose it to extreme heat
- Use battery for other equipment

If battery fluid gets in eyes, do not rub; rinse with water and consult a doctor immediately.

Eyes may be severely damaged.

WARNING

Handset, Battery & Charger

Do not insert foreign objects into the handset or Charger.

Do not insert metal or flammable objects into handset or Charger; may cause fire or electric shock. Keep out of children's reach.

Keep handset out of rain or extreme humidity.

Fire or electric shock may result.

Keep handset away from liquid-filled containers.

Keep the handset and Charger away from chemicals or liquids; fire or electric shock may result.

Do not place battery or handset in ovens, microwave ovens, etc.

Battery or other parts may leak, burst, overheat or ignite; may cause malfunction, accident or injury.

Do not disassemble or modify handset or related hardware.

- Do not open handset or Charger; may cause electric shock or injury. Contact SoftBank Customer Center, Customer Assistance for repairs.
- Do not modify handset or Charger; fire or electric shock may result.

Do not use Mobile Light near people's faces.

Eyesight may be temporarily affected leading to accidents.

CAUTION:

Use of controls, adjustments or performance of procedure other than those specified herein may result in hazardous radiation exposure. As the emission level from Mobile Light LED used in this product is harmful to the eyes, do not attempt to disassemble the cabinet. Servicing is limited to qualified servicing station only.

■ Mobile Light LED Properties

- Emission Duration: Continuous
- Wavelength
White: 400 - 700 nm
- Maximum Emission Output
White: 240 μ W (1.2 mW inside handset)

If an abnormality occurs, or water/foreign matter is inside handset:

If handset emits an unusual sound, smoke or odor, or if water or foreign matter is inside it, discontinue use; may cause fire or electric shock. Turn off handset, remove battery and unplug AC Charger; contact SoftBank Customer Center, Customer Assistance.

Keep handset off and Charger disconnected near gas stations or places with fire/explosion risk.

Handset use near petrochemicals or other flammables may cause fire/explosion; turn handset off before using S! FeliCa at gas stations (cancel IC Card Lock beforehand).

Do not subject handset or Charger to strong shocks or impacts.

- Avoid strong shocks to AC Charger while it is plugged into the outlet; may cause malfunction or injury.
- Strong shocks or impacts to handset or Charger may cause malfunction or injury. Should handset be damaged, remove battery then contact SoftBank Customer Center, Customer Assistance. Discontinue handset use; fire or electric shock may occur.

Handset

Take measures to prevent accidents.

- Do not use handset while driving; park beforehand. Phone use while driving is prohibited by the Road Traffic Law (revised November 1, 2004).
- Do not use Headphones while driving or cycling. Accidents may result.
- Moderate volume outside, especially near road/rail crossings, etc. to avoid accidents.

Do not swing handset by Headphones or strap.

May result in injury or breakage.

Turn handset power off before boarding aircraft.

Using wireless devices aboard aircraft may cause electronic malfunctions or endanger aircraft operation.

Do not remove protective film.

Display is protected with safety film; removing/damaging film may cause injury in case of Display breakage.

Adjust vibration and ringtone settings:

Users with a heart condition/pacemaker/defibrillator should adjust handset settings accordingly.

During thunderstorms, turn power off; find cover.

There is a risk of lightning strike or electric shock.

Charger

Use only the specified voltage.

Non-specified voltages may cause fire or electric shock.

- AC Charger: AC 100V-240V Input
 - SoftBank is not liable for problems resulting from charging battery abroad.

Do not use power adapters.

Using AC Charger with step-up/step-down transformer may cause fire, electric shock or damage.

Charger care

- Do not touch with wet hands. Electric shock may occur.
- Pull AC Charger straight out to unplug it; may cause malfunction or injury.
- Do not use multiple cords in one outlet; may cause excess heat/fire.
- Do not bend, twist, pull or set objects on cord. Exposed wire may cause fire or electric shock.

Do not short-circuit Charger terminals.

May cause overheating, fire or electric shock. Keep metal away from terminals.

Damaged AC Charger cord:

May cause fire or electric shock; discontinue use and purchase a new Charger.

During thunderstorms:

Unplug AC Charger to avoid damage, fire or electric shock.

Charger use and children:

May cause electric shock/injury; keep out of reach.

Battery

- If battery does not charge properly, stop trying. Battery may overheat, burst or ignite.
- At signs of a battery leak, avoid fire sources. It may catch fire or burst.

If there is abnormal odor, excessive heat, discoloration or distortion, remove battery from handset.

It may leak, overheat or explode.

Handset Use & Electronic Medical Equipment

This section is based on "Guidelines on the Use of Radio Communications Equipment such as Cellular Telephones and Safeguards for Electronic Medical Equipment" (Electromagnetic Compatibility Conference, April 1997) and "Report of Investigation of the Effects of Radio Waves on Medical Equipment, etc." (Association of Radio Industries and Businesses, March 2001).

Persons with implanted pacemaker/defibrillator should keep handset more than 22 cm away.

Radio waves can interfere with implanted pacemakers or defibrillators causing such devices to malfunction.

Turn handset off in crowds or trains where persons with implanted pacemaker/defibrillator may be near.

Radio waves can interfere with implanted pacemakers or defibrillators causing such devices to malfunction.

Observe these rules inside medical facilities:

- Do not enter an operating room or an Intensive or Coronary Care Unit while carrying a handset.
- Keep handset off in hospitals, including lobbies.
- Obey medical facility rules on mobile phone use.

Consult electronic medical equipment vendor on radio wave effects.

CAUTION

Handset, Battery & Charger

Handset care

- Place handset on stable surfaces to avoid malfunction or injury.
- Keep handset away from oily smoke or steam. Fire or accidents may result.
- Cold air from air conditioners may condense, resulting in leakage or burnout.
- Keep handset away from heat/direct sunlight (e.g., inside vehicles, etc.). Warping, discoloration or fire may occur. Battery shape may be affected.
- Keep handset out of extremely cold places to avoid malfunction or accidents.
- Keep handset away from fire sources to avoid malfunction or accidents.

Usage environment

- Excessive dust may prevent heat release and cause burnout or fire.
- Avoid using handset on the beach. Sand may cause malfunction or accidents.
- Keep handset away from credit cards, telephone cards, etc. to avoid data loss.

Handset

Handset temperature

Handset may become hot while in use. Avoid prolonged contact with skin especially at high temperature. May cause burn injuries.

Avoid leaving handset in extreme heat (inside vehicles, etc.).

Handset may become hot to the touch, leading to burn injuries.

Volume settings

Moderate handset volume; excessive volume may damage ears or hearing.

Headphones

- Do not force plugs or pull on cord; may damage plugs or cord.
- Keep plugs clean to avoid noise and malfunction.

Inside vehicles

Handset use may cause electronic equipment to malfunction.

If you experience any skin irritation associated with handset use, discontinue handset use and consult a doctor.

Metal and other materials (P.14-18) may cause skin irritation, rashes, or itchiness depending on your physical condition.

Charger

AC Charger cord

- Grasp plug (not cord) to disconnect AC Charger. May cause fire/electric shock.
- Keep cord away from heaters. Exposed wire may cause fire or electric shock.
- Stop use if plug is hot or improperly connected. May cause fire/electric shock.

Always charge handset in a well-ventilated area.

Avoid covering/wrapping Charger; may cause damage/fire.

During periods of disuse

Always unplug AC Charger after use.

Handset maintenance

Always disconnect AC Charger when cleaning handset.

Battery

Do not throw or abuse battery. Battery may overheat, burst or ignite.

Do not leave battery in direct sunlight or inside a closed vehicle; may reduce battery performance or overheat. An overheated battery may cause fire.

Do not expose battery to liquids. Performance may deteriorate.

If battery fluid contacts skin or clothes, rinse with clean water immediately.

Do not dispose of an exhausted battery with ordinary refuse; always tape over battery terminals before disposal. Take battery to a SoftBank shop, or follow the local disposal regulations.

Keep battery out of children's reach.

- Charge battery in ambient temperatures between 5°C and 35°C; outside this range, battery may leak/overheat and performance may deteriorate.
- If your child is using handset, explain all instructions and supervise usage.
- If there is abnormal odor or excessive heat, stop using battery and call SoftBank Customer Center, Customer Assistance.
- Charge battery at least once every six months; an uncharged battery may become unusable.

General Notes

General Use

- SoftBank is not liable for any damages resulting from accidental loss/alteration of handset or Memory Card data. Keep a copy of Phone Book entries, etc. in a separate place.
- Handset transmissions may be disrupted inside buildings, tunnels or underground, or when moving into/out of such places.
- Use handset without disturbing others.
- Handsets are radios as stipulated by the Radio Law. Under the Radio Law, handsets must be submitted for inspection upon request.
- Handset use near landlines, TVs or radios may cause interference.
- **Beware of eavesdropping.**
Because this service is completely digital, the possibility of signal interception is greatly reduced. However, some transmissions may be overheard.
Eavesdropping
Deliberate/accidental interception of communications constitutes eavesdropping.

Inside Vehicles

- Never use handset while driving.
- Do not park illegally to use handset.
- Handset use may affect a vehicle's electronic equipment.

Aboard Aircraft

Never use handset aboard aircraft (keep power off).
Handset use may impair aircraft operation.

Handset Care

- If handset is left with no battery or an exhausted one, data may be altered/lost. SoftBank is not liable for any resulting damages.
- Use handset between 5°C - 35°C (35% - 85% humidity).
- Avoid extreme temperatures and direct sunlight.
- Exposing lens to direct sunlight may damage color filter and affect image color.
- Clean handset with dry, soft cloth. Using alcohol, thinner, etc. may damage it.

- Avoid scratching handset Display.
- When closing handset, keep straps, etc. outside to avoid damaging the Display.
- **Function Usage Limits**
These functions are disabled after handset upgrade/replacement or service cancellation: Camera; Media Player; S! Applications; TV. After a period of disuse, these functions may be unusable; retrieve Network Information (**P.13-17**) to restore usability.
- Handset is not water-proof. Avoid exposure to liquids and high humidity (e.g., precipitation, perspiration, beach, cold air from air conditioning, toilet, bathroom, etc.).
- Avoid heavy objects or excessive pressure. May cause malfunction or injury.
 - Do not sit on handset in back pants pocket.
 - Do not place heavy objects on handset inside handbags, packs, etc.
- Connect only specified products to Headphone Port. Other devices may malfunction or cause damage.
- Always turn off handset before removing battery.

Electromagnetic Waves

For body-worn operation, this phone has been tested and meets RF exposure guidelines when used with accessories containing no metal, that position handset a minimum of 15 mm from the body. Use of other accessories may not ensure compliance with RF exposure guidelines.

FCC Notice

- This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
- Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

FCC RF Exposure Information

Your handset is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health. The exposure standard for wireless handsets employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg.

Highest SAR value:

Model	FCC ID	At the Ear	On the Body
920SH	APYHRO00062	0.375 W/kg	0.308 W/kg

This device was tested for typical body-worn operations with the back of the handset kept 1.5 cm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 1.5 cm separation distance between the user's body and the back of the handset. The use of beltclips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided. The FCC has granted an Equipment Authorization for this model handset with all reported SAR levels evaluated as in compliance with the FCC RF emission guidelines. SAR information on this model handset is on file with the FCC and can be found under the Display Grant section of <http://www.fcc.gov/oet/ea/> after searching on the corresponding FCC ID (see table above). Additional information on Specific Absorption Rates (SAR) can be found on the Cellular Telecommunications & Internet Association (CTIA) Website at <http://www.phonefacts.net>.

European RF Exposure Information

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organization ICNIRP and include safety margins designed to assure the protection of all persons, regardless of age and health. The guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2 W/kg.

As mobile devices offer a range of functions, they can be used in other positions, such as on the body as described in this user guide*.

Highest SAR value:

Model	At the Ear**	On the Body
920SH	0.871 W/kg	0.331 W/kg

As SAR is measured utilizing the device's highest transmitting power the actual SAR of this device while operating is typically below that indicated above. This is due to automatic changes to the power level of the device to ensure it only uses the minimum level required to reach the Network. The World Health Organization has stated that present scientific information does not indicate the need for any special precautions for the use of mobile devices. They note that if you want to reduce your exposure then you can do so by limiting the length of calls or using a handsfree device to keep the mobile phone away from the head and body.

*Please see Electromagnetic Waves on the left for important notes regarding body-worn operation.

**Measured in accordance with international guidelines for testing.

Declaration of Conformity

CE 0168

Hereby, Sharp Telecommunications of Europe Ltd, declares that 920SH is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC. A copy of the original declaration of conformity for each model can be found at the following Internet address: <http://www.sharp.co.jp/k-tai/>

Specific Absorption Rate (SAR)

920SH meets the government's requirements for exposure to radio waves.

These requirements are based on scientific basis to assure that radio waves emitted from mobile phones and other handheld wireless devices do not affect human health. They require that the Specific Absorption Rate (SAR), which is the unit of measurement for the amount of radiofrequency absorbed by the body, shall not exceed 2 W/kg . This limit includes a substantial safety margin designed to assure the safety of all persons, regardless of age or health, and meets the international standard set by International Commission on Non-Ionizing Radiation Protection (ICNIRP) in cooperation with World Health Organization (WHO).

All mobile phones, prior to product launch, must be certified as compliant with government requirements as stipulated by the Radio Law. 920SH has been granted Technical Regulations Conformity Certification by TELECOM ENGINEERING CENTER. Its highest SAR value is 0.496 W/kg . This value was obtained by TELECOM ENGINEERING CENTER as part of the certification process. SAR tests were conducted with handset transmitting at its highest certified power level in accordance with testing methods set by the government. While there may be differences between the SAR levels for various handsets, they all meet the governmental requirements for safe exposure. The actual SAR level of the handset while operating can be well below the highest value. This is because the handset is designed to operate at multiple power levels so as to use only the power required to reach the Network.

Additional information on SAR can be obtained on the following Websites.

Using Memory Card

Save files to microSD™ Memory Card (hereinafter "Memory Card") to organize handset files.

Use recommended Memory Cards only. For details, see P.14-21 "microSD™ Memory Card Compatibility."

Precautions

- microSD™ Memory Card has no write protect switch. Files may be accidentally erased or overwritten.
- SoftBank is not liable for any damages resulting from accidental loss/alteration of information. Keep a copy of Phone Book entries, etc. in a separate place.

Inserting & Removing

- Turn handset power off first.
- Do not force Memory Card into or out of handset.

1 Open cover

2 Insert card

- With logo side up, insert card until it clicks.
- Do not insert other objects into Memory Card Slot.

3 Close cover

- Rotate to replace cover.
- If  appears after powering on handset, Memory Card may not be connected properly; reinsert the card.

Removing Memory Card

- Gently push in card and release it; card pops out. Pull card straight out gently.

Format Card

When using a new Memory Card for the first time, format it on the handset before trying to save files, etc. Format Card deletes all Memory Card files, even those created on other devices.

Emergency Calls

Emergency Calls

Your location is automatically reported to the corresponding agency (police, etc.) when you place emergency calls (110, 119 or 118) with SoftBank 3G handsets. (Emergency Location Report)
920SH reports Location Information based on positioning signals from radio stations.

- Registration/transmission fees do not apply.
- Positioning accuracy is affected by location/signal conditions. Always provide your location and purpose on the phone.
- Location Information is not reported when emergency calls are placed without Caller ID (such as when the number is prefixed with **184**). However, the corresponding agency may obtain your Location Information in a life threatening situation.
- Not available during international roaming.

Handset Restrictions & Emergency Calls

Emergency calls are possible even while some handset restrictions are active.

Messaging

Basics

Use SMS and S! Mail for messaging.

SMS

Exchange up to 160 alphanumeric characters with other SoftBank handsets.

S! Mail

Exchange up to 30,000 characters with e-mail compatible SoftBank handsets or other devices; attach media files, etc.

Arrange Mail

Select font color, font size, background color; insert images, My Pictograms, and more.

Feeling Mail

Set emotion to messages; recipient handset responds accordingly.

- A separate contract is required to use S! Mail and receive e-mail from PCs, etc.
- For more information, see SOFTBANK MOBILE Corp. Website (P.14-21).

Auto Retry Function

If recipient's handset is off/out-of-range, a sent message is saved in Server Mail Box and delivery attempted at regular intervals. (Undeliverable messages are deleted.)

Auto Resend

When Auto Resend is active, handset automatically resends unsent messages up to two times. Cancel to disable (P.13-8).

Available Entry Items

	Recipient	Subject	Message	Attachment
SMS	Available*	N/A	Available	N/A
S! Mail	Available	Available	Available	Available

* SoftBank handset numbers only.

Digital TV

Basics

920SH supports One Seg terrestrial digital television broadcast services developed for mobile devices in Japan.

Watch Live Television

Set up a channel list for your service area to access available programming. Rotate Display to Cycloid position to watch TV in landscape.

Multi Job

Watch TV in one half of Display using the other to access messaging functions, browse the Internet or open Phone Book/Call Log.

Access TV Listing (EPG)

Access TV Listing (EPG) to find program channels and times; set Reservations by date and time to record shows or activate TV.

View Data Broadcasts

In addition to audio and visuals, enjoy text, program-related information and interactive services.

Record & Play Back Shows

Record current program on Memory Card for later viewing on handset; if interrupted by incoming calls while watching TV, record it temporarily for delayed playback.

Reserve TV Programs

Record a show or activate TV at a specified time; enter dates & times manually or reference TV Listing electronic program guide.

Precautions

- 920SH TV is exclusively for use in Japan.
- Do not use TV while driving or riding a bicycle. Accidents may result. Mobile phone use while driving is prohibited by the Road Traffic Law (revised November 1, 2004). When walking, always pay attention to your surroundings, especially near road/rail crossings, etc.
- When using TV while charging battery, separate AC Charger and Antenna to avoid interference.
- Call transmissions, incoming messages or mobile phone use in the immediate vicinity may affect audiovisual quality.
- Programming may not be viewable or record properly when:
 - Too far from or too close to broadcasting stations
 - In mountainous areas or near tall buildings
 - Aboard trains or in moving vehicles
 - Near high-voltage lines, neon lights or wireless base stations
 - Near railroad tracks or highways
 - Anywhere a jamming signal is broadcast/reception is unstable

Area Setup

Follow these steps when activating TV for the first time.

- Setup confirmation appears.

- After setup, channel list appears.

- To watch TV, select **Digital TV** and press .

Watching TV without Completing Area Setup

In ,  **Other Region** 

Digital TV Antenna

- Pull Antenna by top bead until it clicks; fold/rotate Antenna for best reception. (Unless transmission source is near, extend it for better reception.)

- After use, gently retract Antenna. Do not carry handset with Antenna pulled out; damage may result.
- Use optional TV Antenna Connection Cable as needed.

Media Player & S! Applications

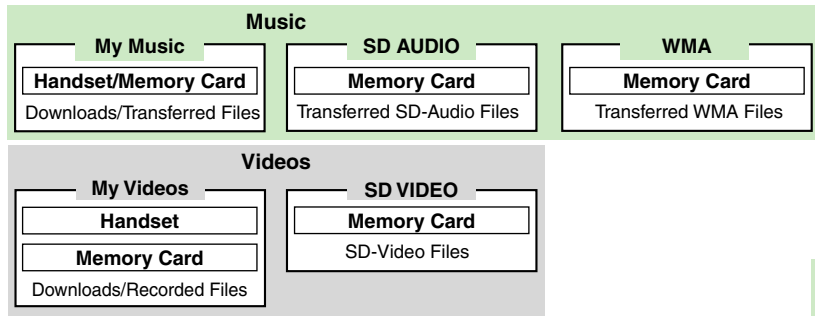

Media Basics

Use Media Player to play music/video on 920SH.

Download media files from Mobile Internet sites via Media Player directly.

Transfer PC music files and save them on Memory Card.

Features & File Support:

Playback Precautions

- Media Player is not compatible with some recording/playback formats. Files may not play depending on the Memory Card status.
- Playback stops for incoming calls.
- When battery is low, Media Player will not play. If battery runs low during playback, Media Player shuts off.
- Turn down the volume if distortion is noticeable in Speaker sound.

Compatibility

- SD AUDIO and WMA files transferred from PCs cannot be used as ringtones or System Sounds.

Obtaining Music

Download music from the Internet.
Read information (price, expiry date, etc.)
on the source site.

4 Connect handset to a PC via USB Cable

- 5  →  **Yes** → 

→ Connection ends

- Safely remove handset (recognized as removable hardware device) on the PC, then disconnect USB Cable.

Utility Software (Japanese)

Supplied CD-ROM contains these utility software programs:

Modem Wizard	Use handset as a modem
Handset Manager	Transfer files between handset and PC
Memory Card Transfer Software	Transfer files on Memory Cards formatted for other SoftBank handsets by SHARP to Memory Cards for handset
PC Document Conversion Utility	Convert PC files to view them on handset

- USB Cable driver is also contained.
- For details, see **Utility Software Starter Guide** (Japanese) on Utility Software CD-ROM.

Mobile Data Communication Fees

- Using the Internet by connecting handset to PC/PDA may incur high charges as large-volume packet transmissions tend to occur in a short period of time; check transmission fees while online.

Backup & Restore

Back up information to Memory Card, and restore to handset as needed.

The following folders/entries can be transferred at once:

Received Msg.	Tasks
Drafts	Notepad
Templates	Bookmarks
Sent Messages	User Dictionary
Phone Book	My Pictograms
Mail Groups	Contents Keys
Calendar	

Precautions

- Not available if battery is low.
- Some items may not be transferable; some settings may be lost, or files may not transfer properly.

■ Received Msg.

- S! Mail Notices are restored as normal messages, invalidating complete message retrieval.
- Transfer deletes Auto Sort Keys.
- If spam filter is available on recipient handset, Spam Folder messages are saved in spam folder regardless of the setting. (If unavailable, they are saved as normal received messages.)

■ Drafts

If transferred from Drafts, only the first entered recipient remains or SMS addressed to multiple recipients may not be saved.

■ Bookmarks

Streaming Bookmarks are saved as Yahoo! Keitai Bookmarks.

■ Contents Keys

- Moving Keys to Memory Card creates a special file. Performing Backup again on the same Memory Card overwrites that file. Perform Restore beforehand.
- While Keys are on Memory Card, related files are inaccessible. (Perform Restore to use those files.)

¹ Any existing SAB content is deleted.

² Any existing Phone Book content is deleted.

³ If the same entry item is edited in Phone Book and SAB, SAB content is referenced.

⁴ Unrelated SAB changes remain.

⁵ Unrelated Phone Book changes remain.

⁶ Access this function via handset or a PC.

⁷ Export Phone Book content to SAB beforehand.

Service Usage Outline

Complete Contract

Visit a SoftBank shop, dial 157 from a SoftBank handset for SoftBank Customer Center, General Information or access My SoftBank via Yahoo! Keitai.

Receive User ID & Password

After subscription, User ID and Password arrive via SMS.

- User ID and Password are required to use SAB via a PC.

Use SAB

Export Phone Book content to SAB.

Precautions

■ Unsynchronizable Items

SAB restoration cancels these Phone Book settings:

- Picture, Tone/Video, Vibration

■ Unintentional Phone Book or SAB Content Deletion

- When no Phone Book content exists, selecting **Synchronize**, **Sync from Client** or **Backup** deletes all SAB content.
- When no SAB content exists, selecting **Synchronize**, **Sync from Server** or **Restore** deletes all Phone Book content.

■ Phone Book ⇔ SAB Content Capacity Disparities

When the number of savable items varies between Phone Book and SAB entries, Synchronization reflects lower limit.

■ Contract Termination

SAB content is deleted upon contract termination.

■ SAB Transfers to New Handsets

- **SAB-Compatible 3G Handsets**
SAB remains as last saved and is fully accessible.
- **Other 3G Handsets**
SAB remains as last saved and is accessible via PC.
- **V3/V4/V5/V6/V8 Series**
Service contract is terminated and SAB content is deleted.

About USIM Card

USIM Card is an IC card containing customer and authentication information, including the handset number. USIM Card must be inserted to use this handset. Save Phone Book entries on USIM Card Phone Book to use them on other SoftBank handsets. Depending on the USIM Card in use, some entry items may not be supported, and some limits (character entry, etc.) may be lower.

Precautions

IC Chip

- Do not insert USIM Card into any other IC card device. SoftBank is not liable for resulting damages.
- Keep the USIM Card IC chip clean; malfunction may result. Use a dry, soft cloth to clean the USIM Card.
- Do not attach labels to USIM Card. Malfunction may result.

Important

- USIM Card is the property of SoftBank.
- USIM Card will be reissued for a fee if lost or damaged.
- Return USIM Card to SoftBank upon subscription termination.
- Returned USIM Cards are recycled.
- USIM Card specifications may change without prior notice.
- Back up USIM Card files. SoftBank is not liable for lost files.
- If your USIM Card or handset (with USIM Card inserted) is lost or stolen, suspend your service immediately. For details, contact SoftBank Customer Center, General Information (P.14-38).

USIM PINs

There are two Security Codes for USIM Card; both are **9999** by default.

PIN1	Security Code to prevent unauthorized use of handset
PIN2	Required to clear Call Costs and to set Max Cost, etc.

PIN Lock

- Entering incorrect PIN three consecutive times activates PIN1 Lock or PIN2 Lock, limiting handset use.

Canceling PIN Lock

- Contact SoftBank Customer Center, General Information (P.14-38) for your Personal Unblocking Key (PUK Code) and follow these steps.
 - Enter PUK Code ➔ ● ➔ Enter new PIN ➔ ● ➔ Re-enter new PIN ➔ ●
 - Write down PUK code.

USIM Lock

- Entering incorrect PUK Code ten consecutive times locks USIM Card, disabling handset. To learn how to unlock USIM Card, contact SoftBank Customer Center, General Information (P.14-38).

USIM Card Installation

Do not apply excessive force to insert/remove USIM Card.

Inserting

- 1 Remove battery (P.14-4)
- 2 Slide in USIM Card with IC chip facing down

- Reinstall battery (P.14-4).

Removing

- USIM Card must be inserted to use this handset.
- Take care not to lose removed USIM Card.

- 1 Remove battery (P.14-4)
- 2 Gently slide out USIM Card as shown

- Reinstall battery (P.14-4).

After Repairs, USIM Card Replacement or Handset Upgrade/Replacement

- Some downloaded files may be inaccessible. In addition, S! Applications, BookSurfing®, S! Town and Near Chat may be disabled after USIM Card replacement.

Battery Installation

About Battery

- Charge battery at least once every six months; an uncharged battery may become unusable or affect files/settings.
- Replace battery if operating time shortens noticeably.
- Clean device charging terminals with a dry cotton swab.

Lithium-ion Battery

- This product requires a lithium-ion battery.
- Lithium-ion batteries are a recyclable resource.

Li-ion 00

- To recycle a used lithium-ion battery, take it to any shop displaying the symbol shown above.
- To avoid fire or electric shock, do not short-circuit or disassemble battery.

Inserting/Removing Battery

1 Remove cover

- Press and slide as shown.

2 Insert battery

- With logo side up, fit tabs into battery cavity slots.

3 Close cover

- Position and slide the cover gently as shown until it stops.

Removing

- Turn handset power off and lift battery as shown.

- Do not remove battery immediately after saving files, sending messages, etc.

Software Update

Check for firmware updates and download as required.

Precautions

- Handset is disabled until update is complete. Update may take up to approximately 30 minutes.
- Update failure may disable handset. To reduce failure risk, make sure signal is strong and stable, and charge battery beforehand.
- Update will not start if other functions are in use. Before updating software (or before scheduled update time), turn power off to end all active functions/applications.
- Disconnect USB Cable beforehand to reduce failure risk.
- Always back up important information. SoftBank cannot be held liable for damages from lost information, etc.

Updating Software

Packet transmission fees do not apply to updates (including checking, downloading and rewriting).

- 1  →  **Settings** → 
- 2  →  **Phone Settings**
- 3  →  **Software Update** → 

Confirmation

- Follow onscreen instructions.

Scheduled Update

- Confirmation appears at scheduled update time. Press  or wait a while for update to start.

When Updated

A message appears and handset reboots.

After reboot, completion message appears and Information window opens.

Update Result

While Information window appears,

 **Update Result** → 

- When Information window is hidden, follow these steps.

In   **Update Result** → 

Reboot Failure

- If handset does not return to Standby after update, turn power off, reinsert battery, then restart it. If it still does not restart, contact SoftBank Customer Center, Customer Assistance (P.14-38).

Troubleshooting

General

Problem	Possible Cause	Solution
Handset won't turn on	Was  pressed long enough?	Press  longer.
	Battery may need to be charged or replaced.	Charge battery or install a charged battery.
	Battery may not be properly installed.	Install battery properly (P.14-4).
Handset won't respond	Is Switch On/Off in PIN Entry On ?	If On , PIN1 is required. Enter PIN1 according to onscreen prompt.
Keypad won't respond	Keypad Lock may be active ( appears).	Cancel Keypad Lock (P.1-9).
	Password Lock may be active ( appears).	Cancel Password Lock (P.11-2).
REFRESH appears and handset returns to Standby	Handset may have been dropped or subjected to shocks.	Handset failed to recognize USIM Card temporarily. This is not a malfunction.
Insert USIM Card appears	USIM Card may not be properly inserted.	Turn power off and check that USIM Card is properly inserted, then restart handset. If the message still appears, USIM may be damaged.
	The correct USIM Card may not be inserted.	Make sure the correct USIM Card is inserted. The inserted USIM Card may not be valid.
	There may be debris on IC chip/terminals.	Clean relevant parts with a dry cloth and re-insert.

Problem	Possible Cause	Solution
Battery strength indicator flashes when not charging	Ambient temperature may be outside 5°C to 35°C.	Use within an ambient temperature of 5°C - 35°C.
Saved entry/folder does not appear on handset	Entry/folder may be set to Secret.	Activate Show Secret Data (P.11-3).
Handset feels warm	Handset may warm while charging.	Unless handset becomes very hot to the touch, these should be considered normal; regardless, avoid prolonged skin contact which could cause burn injuries.
	Handset may warm during extended periods of use.	
	Handset may warm during Video Calls.	
Cannot access Memory Card files	Memory Card may not be properly formatted.	Use 920SH-formatted Memory Cards.
Cannot receive/accept connection requests even when Bluetooth®/Infrared is On	Handset may not be in Standby.	Return to Standby and try again.
	Keypad Lock/Password Lock may be active.	Cancel Keypad Lock/Password Lock.
	Software Update may be in progress.	Wait until update is complete.

■ Charger/Battery

Problem	Possible Cause	Solution
Battery charges quickly	Remaining charge shortens charging time.	This is normal.
	Battery may be terminally exhausted or defective. (Small Light flashes red.)	Replace battery with a new one.
Battery charges slowly	Battery may be charging via USB.	Use AC Charger.
	Charging slows during Video Calls.	End the call to charge faster.
Battery won't charge	AC Charger may not be properly connected to handset.	Make sure connector is securely inserted and try again.
	AC Charger may not be firmly plugged in to AC outlet.	Remove plug from outlet, re-insert and try again.
	Battery may not be properly installed.	Install battery properly and try again (P.14-4).
	Handset, External Device Port, battery or AC Charger connector terminals may need to be cleaned.	Clean terminals with a cotton swab and try again.
	Charger may not be supported.	Use specified AC Charger only; others may damage battery.

Problem	Possible Cause	Solution
Battery Time seems shorter than usual	High power consuming operations are in use.	Keep handset closed in Standby; reduce TV, S! Application, Media Player and Camera use, and limit transmissions/external connections.
	Using handset in poor conditions may shorten Battery Time.	Avoid prolonged use of handset out-of-range or in poor signal conditions.
	Power hungry settings may be active.	Lower Brightness, select shorter Display Saving/ Backlight time, etc.

■ Calling

Problem	Possible Cause	Solution
Cannot place call	Keypad Lock may be active (☞ appears).	Cancel Keypad Lock (P.1-9).
	Password Lock may be active (☞ appears).	Cancel Password Lock (P.11-2).
Call won't connect and there's a beeping tone	Did you include the area code or the first 0?	Dial the number including the area code or 0.
	Handset may be out-of-range (☞ appears).	Move to a place where signal is strong and retry.
	Offline Mode may be active (☞ appears).	Cancel Offline Mode (P.1-12) and retry.

■ Calling (continued)

Problem	Possible Cause	Solution
Call is choppy or cut off	Network signal may be weak.	Move to a place where signal is strong and retry.
	Battery may need to be charged or replaced.	Charge battery or install a charged battery.
Clicking noise is heard during call	Handset may be moving into another service area.	Noise is heard when Network signal switches. This is normal.
Cannot hear other party's voice	Earpiece Volume may be low.	Increase Earpiece Volume (P.3-10).
	Sound output may be set to use handsfree device.	Set Transfer Audio (P.3-11) to To Phone .
Cannot use Answer Phone or Caller Voice	Memory may be full.	Answer Phone and Caller Voice are disabled when less than 12 seconds remain or 20 messages are recorded. Delete messages (P.3-3).
	Is the call a Video Call?	Answer Phone and Caller Voice are not available for Video Calls.
Cannot save phone number for Call Forwarding	Does the number start with 1, 00, 0120 or 0990?	Public service numbers, international call numbers starting with 00, toll-free numbers and fee-based service numbers cannot be saved.

■ Messaging

Problem	Possible Cause	Solution
Cannot receive messages	Does  appear?	Memory is full. Delete messages (P.4-17).
	Does  appear?	Move to a place where signal is strong and retry.
S! Mail is not delivered as sent	Recipient handset may not be S! Mail-compatible.	Recipient must be subscribed to S! Mail, Super Mail or Long Mail. The maximum size of messages/ attachments handsets can receive varies by make and model. Confirm compatibility with recipient handsets.
Still images are not delivered as sent	Recipient handset may not be JPEG-compatible.	Convert JPEG files to PNG (P.7-13).
Video clips are not delivered as sent	Recipient handset may not support the file format.	Send video clips to S! Mail- or VGS-compatible SoftBank handsets supporting MPEG-4.

■ Other Functions

Problem	Possible Cause	Solution
TV, mobile camera, etc. won't activate	Battery may need to be charged or replaced.	Charge battery or install a charged battery.
Cannot watch TV	Network Information may need to be retrieved.	Retrieve Network Information (P.13-17).
	USIM card may not be inserted. Subscription may be terminated.	TV is disabled when USIM Card is not inserted or upon subscription termination.
Cannot use S! FeliCa	Battery may need to be charged or replaced.	Charge battery or install a charged battery.
