# General Notes

## Using Your Handset

- The handset employs radio waves. Signals may be disrupted even within service areas if you are indoors, underground, inside a tunnel or inside a vehicle. If you move to a location with poor signal reception, a call may be suddenly cut off.
- When using the handset in public places, take care not to annoy other people around you. Use of the handset is prohibited in some public places such as in theaters or on buses and trains.
- The handset is a radio transceiver under Japanese Radio Law. You may be requested to submit the handset for inspection based on this law.
- Use of the handset near a landline phone, TV or radio may affect the image and sound quality of the equipment.
- The handset employs a digital system to maintain a high level of communication quality even at very low signal levels. However, calls may be suddenly cut off when the signal strength becomes too weak.
- The digital system provides a high level of privacy protection. However, the possibility of someone eavesdropping on your conversation cannot be ruled out as long as radio waves are used.

- The handset is exclusively for use in Japan. It cannot be used outside Japan.
- Data stored on the handset may be corrupted or lost on the following occasions.
  - The handset is used improperly.
  - The handset is exposed to static electricity or electric noise.
  - The handset is turned off during operation.
  - The battery is completely discharged.
  - The handset malfunctions or is sent for repairs.
 SoftBank and Toshiba accept no liability whatsoever for the corruption or loss of stored data. Be sure to keep a separate memo of important data to limit damage caused by data corruption or loss to a minimum.
- Be sure to charge the battery before using the handset for the first time or if the handset has not been used for a long time. When the battery is stored for a long time, it discharges over time even if it is not used.
- Before using a memory card, read the instruction manual of the memory card thoroughly to ensure safe and proper operation.
- When the handset is used for extended periods of time, especially in high temperature conditions, the handset surface could become hot. Please use caution when touching the handset under such conditions.

- When certain items are taken out of the country, documentation may be required to certify that the export of the items is not controlled, prohibited, or restricted by the Export Trade Control Order and Foreign Exchange Order. Basically, no such documentation is required if you take the handset out of the country and bring it back for the purpose of personal use when going on vacations or short business trips. In some cases, however, an export permit may be required if the handset is to be used by or transferred to anyone else. Furthermore, a US government export permit may be required when taking the handset to countries for which the US government has imposed export restrictions (Cuba, North Korea, Iran, Sudan, Syria). For details on export laws, regulations and procedures, refer to the Web page of the Security Export Control Policy Division of the Ministry of Economy, Trade and Industry.
- If you use a hearing aid, handset usage may interfere with hearing aid performance. If there is any interference, consult with the manufacturer or distributor of the hearing aid.

## Inside Vehicles

- Do not use the handset while driving. Use of the handset while driving is prohibited by law. Talking on the handset using Stereo Earphone-Microphone (sold separately) while driving may be subject to penalties in some prefectures.
- Before using the handset, stop the vehicle in a safe area where parking or stopping is permitted.

## Aboard Aircraft

- Do not use the handset on an aircraft. Do not turn the handset on while you are on the aircraft. Use of the handset on an aircraft is prohibited by law.

Read Safety Precautions (page xlii), General Notes (page liv) and End User License Agreement (page lxxv) in the Japanese User Guide, prior to handset use. 822T is waterproof. Read Waterproofing Precautions (pages lix to lxiv) in the Japanese User Guide, prior to handset use.

# Before Using Handset

## Package Contents

- Handset\*1
- Battery (TSBAR1)
- Battery Cover
- Battery Cover Key (TSKBF1)
- Desktop Cradle (TSEBF1)
- Start Book (Japanese)
- User Guide (Japanese)
- First Step Guide
- Utility Software for 822T (CD-ROM)\*\*2,3

\*1 Use SoftBank specified AC Charger (sold separately) and In-Car Charger (sold separately).

\*\*2 Complimentary sample not available for purchase.

\*\*3 Utility Software updates/upgrades may become available via SOFTBANK MOBILE Corp. Website (<http://www.softbank.jp>) without prior notification. Please check for the newest versions of Utility Software and download as required.

## Battery Removal

- 1 Use Key to turn lock (in direction of arrow) and unlock battery cover

Turn the lock until it stops at the pictured position.

- 2 Lift off the cover

- 3 Pull the tab above ▲ to remove the battery

Removing the battery in any other way may damage the terminals.

## USIM Card Installation

USIM Card must be inserted to use this handset. Turn handset power off and remove the battery before inserting/removing USIM Card.

Insert USIM (IC facing down) as pictured

## Battery Installation

- 1 Align terminals and insert the battery

- 2 Align battery cover lugs to handset grooves and press down the cover tightly

- 3 Use key to turn lock (in direction of arrow) and lock the cover

Turn the lock until it stops at the pictured position.

## USIM PINs

### PIN

A four- to eight-digit security code to prevent unauthorized handset use. The default setting is 9999.

### PIN2

A four- to eight-digit security code required to reset **Call Time&Cost**. The default setting is 9999.

### PIN Lock & PUK Codes

PIN Lock or PIN2 Lock is activated when PIN or PIN2 is incorrectly entered three times. PUK (Personal Unblocking Key) codes are required to cancel PIN Lock/PIN2 Lock. For details, contact SoftBank General Information.

## Security Codes

### Handset Code

A four-digit number required to use various handset functions. The default setting is 9999.

### Center Access Code

A four-digit number assigned at initial subscription. Use the code to access Optional Services via landlines or to subscribe to fee-based content.

## Call Barring Service Code

A four-digit number assigned at initial subscription. It is required to set Call Barring. If the code is incorrectly entered three times, Call Barring settings lock. Call Barring Service Code and Center Access Code must be changed. Contact SoftBank General Information for details.

## Internet Security Code

It is required to set Internet security.

## Manner Mode

### Minding Mobile Manners

Please use your handset responsibly. Inappropriate handset use can be both dangerous and bothersome. Please take care not to disturb others when using your handset. Adjust handset use according to your surroundings.

### Activating/Canceling Manner Mode

Press and hold **Ⓜ** (Manner Mode)

## Charging

- 1 Attach Charger to Desktop Cradle
- 2 Plug Charger into an AC outlet
- 3 Slide handset into Desktop Cradle until it clicks
- 4 Remove handset from Desktop Cradle, then unplug Charger

Charging Indicator lights red while charging; may take up to approximately 130 minutes.

\*AC Charger is sold separately.

## Specifications

Frequency Range	1920 - 2170 MHz
Continuous Talk Time	Approx. 190 min. (Video Call: Approx. 110 min.)
Continuous Standby Time	Approx. 420 hrs
Charging Time	Approx. 130 min.

Dimensions (W×H×D)	Approx. 50×102×19 mm (handset closed)
Maximum Output	0.25 W
Weight	Approx. 127 g (with battery)
