5

Overview

Handset supports S! Mail and SMS.

5
Mail

Server

- If recipient's handset is turned off or out of range, sent message is stored on the server up to 30 days until the recipient's handset becomes available.

Available Mail Services

SMS

Exchange short text messages with other SoftBank handsets.

S! Mail (Separate contract required)

Exchange long text messages with S! Mail compatible SoftBank handsets and other e-mail compatible mobile phones and PCs. Images and melodies can also be attached to S! Mail.

Customize Handset E-mail Address.
Effective for blocking spam.

Graphic Mail

Use HTML mail to change font size/color, background, etc.

Emotion-Expressing Mail

Based on sender's message, handset shows a pictogram matching the sender's mood.

Sending S! Mail

1 Press and hold

Composition Window

2 Select address field

Enter Address

Enter address

■ Adding Recipients

Select address field

Select address field **Enter**

Address Enter address

3 Select Subject field

Enter subject

If (double-byte mode) appears, switch to single-byte mode (P. 2-31).

Tip

- Add up to 20 recipients total between To, Cc and Bcc fields.

4 Select text field

Enter text

Text Entry Window

5

■ To Cancel Transmission

When **Start Packet Connection** appears ; or

During Transmission

■ If **Resend mail?** Appears

YES

Attaching Files

Attach the following files to S! Mail:

- Images
- Videos
- Melodies
- Music (Songs)
- Books
- Widget
- Phone Book entries
- Account Details
- Schedule
- To Do List
- Bookmarks

- For information about image, video, melody and music files, see P. 12-2.

1 [Composition] window

Attach File

2 Select a file type

(**Enter Security Code**

) **Select a file**

■ Images with Large File Size

Attach Mail, QVGA Scale down or **VGA Scale down**

■ Attach Additional Files

Repeat steps 1 and 2 above

■ Open an Attached File

Select an attached file

Note

- Copy protected files cannot be sent as attachments or output to external devices.

Graphic Mail

Create html messages to change font color/size and background color. Add scrolling text, paste images, etc.

<Example> Change font size, background color, insert an image and set flashing text.

1 [Text Entry] window 
   **Select a font size**   **Enter text** 

2    **to select a background color** 

- **To Toggle Color Palettes**
 **In Background color window** 
 Toggle between 25-color and 256-color palettes.

3    **Select a folder**
  **Select an image** 

■ **Inserting Images with Large File Size**
 **Insert Mail** or **SubQCIF Scale down** 

4    **Begin**  
Enter text  **(twice)** 
   **End** 

5  

Adding Addresses to Blog/Mail Member List

Group addresses into Blog/Mail Member list to upload blog images and send messages by group.

- Set one Blog/Mail Member as a blog upload destination.

1  **Own Data**  
Blog/Mail Member 

Blog/Mail Member List

■ **To Specify as Blog Upload Destination**

-  **Select Blog/Mail Member** 
 Blog/Mail Member "★" specified as upload destination appears.

■ **To Cancel Blog Upload Destination**

-  **Select Blog/Mail Member with "★"** 

2 Select a Blog/Mail Member list →

Opening New Messages

Received Result window opens for new messages.

By default, complete S! Mail messages (including attachments) are automatically retrieved. Transmission fees apply, depending on your subscription plan. While traveling abroad, message retrieval may incur high transmission fees.

● Emotion-Expressing Mail

When an S! Mail is received, a pictogram matching the message content appears.

If a message contains a specific keyword, a corresponding indicator appears (P. 14-22).

Received Result Window

● Indicators

	Urgent		Advice
	Love		Try Hard
	Hate		Invitation
	Happy		Feedback
	Angry		Request
	Sad		Announcement
	Fun		OK
	Surprise		Reply
	Question		Information

— appears if message content does not match any of the above moods or information.

1 [Received Result] window ⇨
Mail ⇨ ■

2 Select a message ⇨ ■

Tip

- Alternatively open new messages from desktop notification.
- Indicator may not always correspond to message content.

Opening Inbox Messages

1 ⇨ **Inbox** ⇨ ■

Folder List

2 Select a folder ⇨ ■

Message List

3 Select a message →

Message Window

■ To Check Previous/Next Message
→

Tip

- Use or to scroll.
- Some attachments may require content keys to open/play the file.

Replying to Messages

Message Storage Locations

Press to open Mail Main Menu. Sent, received and draft messages are saved in the locations below.

Message Menu

- Received messages
- Sent messages
- Draft messages

Opening Sent & Received Messages

<Example> Open a Sent Message

1 → **Outbox** →

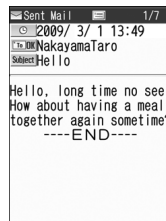

Folder List

2 →

Message List

3 Select a message →

Message Window

To Check Previous/Next Message

Tip

- When Outbox/Inbox becomes full, Trash Box messages and then the oldest messages in Outbox/Inbox are deleted next time a new message is sent/received. Unread and protected messages and Secret Folder messages are not deleted.

Mail Windows

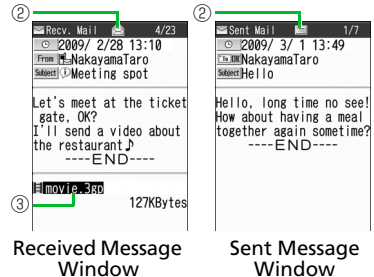

Message types, statuses, and attached file types are shown by indicators.

Message List Windows

Message Windows

①	Folder Type General Folder Trash Box Folder Secret Folder
②	Message Status Unread Received Message Read Received Message Protected Unread Message Forwarded Message Replied Message Message Sent to a Single Recipient Message Sent to Multiple Recipients
③	Message Type/Attached File Type SMS on Handset SMS on USIM Card S! Mail with Text Unreceived Image Attached/Image Inserted in Text Video Attached Melody Attached Song Attached Copyright-protected File Attached Phone Book Entry, Schedule Event or Bookmark Attached Widget Attached E-comic Attached Forwarded Server Message Other Type of File Attached Multiple Files Attached

The following marks appear on indicators to inform you:

- Folder Contains Unread Messages
- Locked Folder
- Folder with Auto Sort Set
- Protected Message
- Delivery failed to Some Recipients or Some Attachments Deleted
- Delivery Failed/All Attachments Deleted
- Attachment Deleted
- High Priority Message

Tip

- Copyright-protected files cannot be opened/played unless they are saved in Data Folder.
- If Delivery Report was received, **Subject** appears in field of message.

Sorting Messages

Automatically sort incoming/outgoing messages into folders.

1 [Folder List] ⇨ Select a folder ⇨ ⇨ **Auto-sort** ⇨

■ When Auto Sort is Already Set to the Folder
⇨ Select another criterion ⇨

2 **Address Sort** ⇨ ⇨ **Look-up Address, Look-up Group, Look-up Member or Enter Address** ⇨

■ To Sort by Subject
⇨ **Subject Sort** ⇨ ⇨ Enter subject ⇨

■ To Sort Messages Failed to be Replied/Sent
⇨ **Reply Impossible** or **Send Impossible** ⇨

■ To Sort Addresses Not Stored in Phone Book
⇨ **Unregistered Add.** ⇨

Tip

- Only one Inbox folder can be specified for sorting *Reply impossible* messages.
- Only one Outbox folder can be specified for sorting *Send impossible* messages.
- Search addresses from Phone Book, Received Address List, or Sent Address List in Look-up address.

Canceling Auto Sort

1 [Folder List] ⇨ Select a folder ⇨ ⇨ **Auto-sort** ⇨

2 Select a criterion ⇨ ⇨ **Release** ⇨

3 **Release This** ⇨ ⇨ **YES** ⇨

■ To Cancel Multiple Criteria
⇨ **Release Selected** ⇨ ⇨ Select criteria ⇨ ⇨ ⇨ **YES** ⇨

■ To Cancel All Criteria
⇨ **Release All** ⇨ ⇨ **YES** ⇨

Using Tomomato-Mail

Store e-mail addresses in Tomomato-Mail and check messages with stored addresses by selecting Tomomato-Mail BOX.

Checking Tomomato-Mail
